MBSB BANK BERHAD (200501033981 / 716122-P)
(Incorporated in Malaysia)

Directors' report

The Directors have pleasure in presenting their report together with the audited financial statements of the Bank Group and of the Bank for the financial year ended 31 December 2019.

Principal activities

The Bank is principally engaged in Islamic banking business and the provision of related financial services.

Immediate and ultimate holding company/body

The immediate holding company is Malaysia Building Society Berhad ("MBSB"), a public limited liability company incorporated in Malaysia and listed on the Main Market of Bursa Malaysia Securities Berhad. The ultimate holding body is Employees Provident Fund ("EPF"), a statutory body established under the Employees Provident Fund Act 1991 (Act 452).

Subsidiary

The details of the Bank's subsidiary are disclosed in Note 12 to the financial statements.

Results

	Bank Group RM'000	Bank RM'000
Profit for the year	<u>550,846</u>	<u>469,040</u>

Reserves and provisions

There were no material transfers to or from reserves or provisions during the financial year other than those disclosed in the financial statements.

Dividends

On 29 January 2020, the Directors approved a proposed single-tier final dividend of 2.59 sen per ordinary share in respect of the financial year ended 31 December 2019. Based on the number of shares in issue of 5,159,859,288 as at 31 December 2019, the dividend payable would be RM133,657,081.

MBSB BANK BERHAD (200501033981 / 716122-P)
(Incorporated in Malaysia)

Directors

The Directors of the Bank and the Bank's subsidiary in office since the beginning of the current financial year to the date of this report are:

The Bank

Datuk Azrulnizam bin Abdul Aziz
Datuk Johar bin Che Mat
Tan Sri Abdul Halim bin Ali
Encik Sazaliza bin Zainuddin
Encik Aw Hong Boo
Puan Lynette Yeow Su-Yin
Tunku Alina binti Raja Muhd Alias
Dr. Loh Leong Hua
Encik Kamarulzaman bin Ahmad (Appointed on 1 October 2019)
Encik Arul Sothy Mylvaganam (Appointed on 5 May 2020)

The subsidiary of the Bank

Encik Tang Yow Sai
Cik Yam Kwai Ying Sharon
Thiru Selvi a/p Supramaniam (Appointed on 1 October 2019)
Encik Edmund Lee Kwing Mun (Appointed on 16 December 2019)
Puan Norhayati binti Azit (Resigned on 1 October 2019)

Directors' benefits

Neither at the end of the financial year nor at any time during that year, did there subsist any arrangement to which the Bank or its subsidiary was a party whereby the Directors might acquire benefits by means of the acquisition of shares in or debentures of the Bank or any of its related corporations during the financial year.

Since the end of the previous financial year, no Director, other than disclosed in Note 39(c) to the Financial Statements has received nor become entitled to receive a benefit (other than benefits included in the aggregate amount of remuneration received or due and receivable by the Directors as shown in Note 33 to the financial statements) by reason of a contract made by the Bank or a related corporation with any Director or with a firm of which the Director is a member, or with a company in which the Director has a substantial financial interest.

There were no arrangements during and at the end of the financial year which had the object of enabling Directors of the Bank to acquire benefits by means of the acquisition of shares in or debentures of the Bank or any other related body corporates, other than the Employee Share Options Scheme under MBSB.

Indemnity and Takaful cost

The Directors and Officers of the Bank Group and of the Bank are covered by Directors' and Officers' Liability Takaful of the holding company, MBSB. The total takaful coverage amounts to RM50,000,000 and the annual takaful cost that is payable amounts to RM122,970 which is borne by the holding company.

MBSB BANK BERHAD (200501033981 / 716122-P)
(Incorporated in Malaysia)

Directors' interests in shares

According to the register of Directors' shareholdings, the interest of a Director in office at the end of the financial year in shares of the Bank and its related corporations during the financial year are as follows:

Name of Director	Number of ordinary shares			31.12.2019
	1.1.2019	Acquired	Sold	
<i>Direct interest:</i>				
<i>Ordinary shares of MBSB</i>				
Tan Sri Abdul Halim bin Ali	250,366	15,647	-	266,013

None of the other Directors in office at the end of the financial year had any interest in shares and options over shares in the Bank or its related corporations during the financial year.

Issue of shares and debentures

In December 2019, the Bank increased its issued and paid-up capital from RM4,625,859,288 to RM5,159,859,288 via the issuance of 534,000,000 new ordinary shares.

On 20 December 2019, the Bank issued a new Tier-2 Sukuk Wakalah with nominal value of RM1,300,000,000.

Save as disclosed above, there were no other new shares or debentures issued during the financial year.

Options granted over unissued shares

No options were granted to any person to take up unissued shares of the Bank during the financial year.

Statement of Corporate Governance

The Board of Directors ("the Board") of the Bank is pleased to report the application by the Bank of the principles contained in the Malaysian Code on Corporate Governance ("the Code") and the extent of compliance with the best practices of the Code. Although the Bank is not a listed company, the Board has endeavoured to apply the principles and comply with the relevant best practices of corporate governance as set out in the Code. The Bank is also required to comply with Bank Negara Malaysia ("BNM")'s policy document on Corporate Governance ("BNM/RH/PD 029-9") issued on 3 August 2016.

Business review for 2019

The Bank Group registered a profit before taxation and zakat of RM753 million for 2019 as compared to profit before taxation and zakat of RM518 million in prior year. Gross financing and advances for the Bank Group as at 31 December 2019 stood at RM33,990 million (2018: RM33,045 million) whilst total deposits stood at RM35,894 million (2018: RM32,788 million).

The Bank Group continued its focus to grow Corporate financing during the year, including expanding its trade finance portfolio, and strengthening its capital with the issuance of Tier-2 Sukuk Wakalah in December 2019.

The Bank Group was also active in the treasury segment, with higher treasury income and bigger investment in securities during the year.

Overall, the Bank Group's financial results for 2019 is satisfactory.

Outlook for 2020

The Islamic banking industry in Malaysia has advanced rapidly over the years, with a significant proportion of loans and financing in the country being Islamic financing. Islamic banks offer various competitive and innovative products, complementing solutions offered by conventional banks. While the growth is seen as significant in the industry, it is also important that Islamic financing delivers a positive and sustainable impact on the economy and community.

The Bank Group will continue its focus to expand the corporate business, to reach the desired corporate-retail portfolio mix. The Bank Group is looking forward to expanding its products and services which include trade finance, wealth management and mobile banking to cater for various segments of our customers and depositors.

For the year 2020, the Bank Group's performance is expected to be impacted by the novel coronavirus ("Covid-19") outbreak in the country.

Other statutory information

- (a) Before the financial statements of the Bank Group and of the Bank were made out, the Directors took reasonable steps:
- (i) to ascertain that proper actions had been taken in relation to the writing off of bad financing and advances, and the making of allowance for impaired financing and advances and had satisfied themselves that all known bad financing and advances had been written off and that adequate allowance had been made for impaired financing and advances; and
 - (ii) to ensure that any current assets, other than financing and advances, which were unlikely to be realised at their values as shown in the accounting records of the Bank Group and of the Bank in the ordinary course of business had been written down to an amount which they might be expected so to realise.
- (b) At the date of this report, the Directors are not aware of any circumstances:
- (i) that would render the amount written off for bad financing and advances or the amount of the allowance for impaired financing and advances in the financial statements of the Bank Group and of the Bank inadequate to any substantial extent; or
 - (ii) that would render the values attributed to the current assets in the financial statements of the Bank Group and of the Bank misleading; or
 - (iii) which have arisen which render adherence to the existing methods of valuation of assets or liabilities of the Bank Group and of the Bank misleading or inappropriate; or
 - (iv) not otherwise dealt with in this report or the financial statements of the Bank Group and of the Bank which would render any amount stated in the financial statements misleading.
- (c) At the date of this report, there does not exist:
- (i) any charge on the assets of the Bank Group or of the Bank which has arisen since the end of the financial year which secures the liabilities of any other person; or
 - (ii) any contingent liability of the Bank Group or of the Bank which has arisen since the end of the financial year other than those arising from the normal course of business of the Bank Group and of the Bank.

Other statutory information (cont'd.)

(d) In the opinion of the Directors:

- (i) no contingent or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which will or may affect the ability of the Bank Group and of the Bank to meet their obligations as and when they fall due; and
- (ii) the results of the operations of the Bank Group and of the Bank for the financial year ended 31 December 2019 have not been substantially affected by any item, transaction or event of a material and unusual nature nor has any such item, transaction or event occurred in the interval between the end of that financial year and the date of this report.

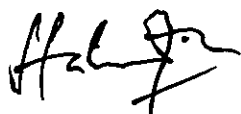

Significant events during the financial year and subsequent events after the financial year end

Significant events during the financial year are disclosed in Note 44 to the financial statements. Subsequent events after the financial year end are disclosed in Note 45 to the financial statements.

Auditors

The auditors, KPMG PLT, have expressed their willingness to continue in office. The auditors' remuneration is disclosed in Note 32 to the financial statements.

Signed on behalf of the Board of Directors in accordance with a resolution of the Directors dated 6 May 2020.

Shariah Advisory Committee's Report

In the name of Allah, the Beneficent, the Merciful.

In compliance with the letter of appointment, we are required to submit the following report:

We have reviewed the principles and contracts relating to the transactions and applications introduced by MBSB Bank Berhad ("the Bank") during the year ended 31 December 2019. We have also conducted our review to form an opinion as to whether the Bank has complied with the Shariah principles and with the Shariah rulings issued by the Shariah Advisory Council of Bank Negara Malaysia, as well as the Shariah decisions made by us.

The Management of the Bank is responsible for ensuring that the Bank conducts its business in accordance with the Shariah principles. It is our responsibility to form an independent opinion, based on our review of the operations of the Bank, and to report to you.

We have assessed the work carried out by the Shariah review and the Shariah audit which included examining, on a test basis, each type of transaction, the relevant documentation and procedures adopted by the Bank.

We planned and performed our review so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidences to give reasonable assurance that the Bank did not violate the Shariah principles.

In our opinion:

- the contracts, transactions and dealings entered into by the Bank during the year ended 31 December 2019 that we have reviewed are in compliance with the Shariah principles;
- all earnings that have been realised from sources or by means prohibited by the Shariah principles have been considered for disposal to charitable causes; and
- the calculation and disbursement of zakat are in compliance with Shariah principles.

During the financial year ended 31 December 2019, a total of 13 meetings were held. The Shariah Advisory Committee comprises the following Members and the number of attendance of each Member at the meetings held during the financial year is as follows:

No.	Members	Meetings attended
1	Dr. Akhtarzaite Abdul Aziz	13/13
2	Prof. Dr. Abdul Rahim Abdul Rahman	6/13
3	Prof. Dato' Dr. Noor Inayah Ya'akub	10/13
4	Tn. Hj. Mohd Nasiruddin Mohd Kamaruddin	13/13
5	Tn. Hj. Mohd Bahroddin Badri	12/13

Shariah Advisory Committee's Report (cont'd.)

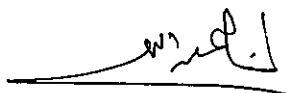

We, Members of the Shariah Advisory Committee of the Bank to the best of our knowledge based on material evidences presented to us, do hereby confirm that the operations of the Bank for the year ended 31 December 2019 have been conducted in conformity with the Shariah principles.

Chairman of Shariah Advisory Committee

Hj. Mohd. Bahroddin Badri

Member of Shariah Advisory Committee

Dr. Luqman Hj. Abdullah

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF MBSB BANK BERHAD

(200501033981 / 716122-P)
(Incorporated in Malaysia)

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of MBSB Bank Berhad, which comprise the statements of financial position as at 31 December 2019 of the Bank Group and of the Bank, and the statements of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows of the Bank Group and of the Bank for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 14 to 146.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Bank Group and of the Bank as at 31 December 2019, and of their financial performance and their cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our auditors' report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and Other Ethical Responsibilities

We are independent of the Bank Group and of the Bank in accordance with the *By-Laws (on Professional Ethics, Conduct and Practice)* of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Information Other than the Financial Statements and Auditors' Report Thereon

The Directors of the Bank are responsible for the other information. The other information comprises the information included in the Directors' Report, but does not include the financial statements of the Bank Group and of the Bank and our auditors' report thereon.

Our opinion on the financial statements of the Bank Group and of the Bank does not cover the Directors' Report and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Bank Group and of the Bank, our responsibility is to read the Directors' Report and, in doing so, consider whether the Directors' Report is materially inconsistent with the financial statements of the Bank Group and of the Bank or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of the Directors' Report, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Statements

The Directors of the Bank are responsible for the preparation of financial statements of the Bank Group and of the Bank that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Bank Group and of the Bank that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Bank Group and of the Bank, the Directors are responsible for assessing the ability of the Bank Group and of the Bank to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Bank Group or the Bank or to cease operations, or have no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Bank Group and of the Bank as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Auditors' Responsibilities for the Audit of the Financial Statements (cont'd)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Bank Group and of the Bank, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Bank Group and of the Bank.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Bank Group or of the Bank to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Bank Group and of the Bank or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Bank Group or the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Bank Group and of the Bank, including the disclosures, and whether the financial statements of the Bank Group and of the Bank represent the underlying transactions and events in a manner that gives a true and fair view.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Bank Group to express an opinion on the financial statements of the Bank Group. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Other Matter

This report is made solely to the members of the Bank, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

Notes to the financial statements
For the financial year ended 31 December 2019

Corporate information

The Bank is a licensed Islamic bank under the Islamic Financial Services Act 2013, incorporated and domiciled in Malaysia. The address of the registered office and principal place of business of the Bank is as follows:

11th floor, Wisma MBSB
48 Jalan Dungun
Damansara Heights
50490 Kuala Lumpur

The Bank is principally engaged in Islamic banking business and the provision of related financial services. The details of the Bank's subsidiary are disclosed in Note 12 to the financial statements.

The immediate holding company is Malaysia Building Society Berhad ("MBSB"), a public limited liability company incorporated in Malaysia and listed on the Main Market of Bursa Malaysia Securities Berhad. The ultimate holding body is Employees Provident Fund ("EPF"), a statutory body established under the Employees Provident Fund Act 1991 (Act 452).

The consolidated financial statements of the Bank as at and for the financial year ended 31 December 2019 comprise the Bank and its subsidiary (together referred to as the "Bank Group") and its interest in a joint venture.

These financial statements were approved by the Board of Directors on 6 May 2020.

1. Basis of preparation

The consolidated and separate financial statements of the Bank Group and of the Bank have been prepared in accordance with Malaysian Financial Reporting Standards ("MFRS"), International Financial Reporting Standards ("IFRS"), the requirements of the Companies Act 2016 in Malaysia and Shariah requirements.

The financial statements of the Bank Group and of the Bank have been prepared on a historical cost basis except other than as disclosed in Note 2.

The financial statements are presented in Ringgit Malaysia ("RM") which is the Bank's functional currency. All financial information is presented in RM and has been rounded to the nearest thousand (RM'000) except when otherwise indicated.

2. Summary of significant accounting policies

The accounting policies set out below have been applied consistently to the periods presented in these financial statements unless otherwise stated.

(a) Foreign currency transactions

Foreign currency transactions are translated to the respective functional currencies using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

(b) Basis of consolidation

(i) Subsidiaries

A subsidiary is an entity over which the Bank has all of the following:

- power over the investee;
- exposure or rights to variable returns from its involvement with the investee; and
- the ability to use its power to affect those returns.

In the Bank's separate financial statements, investment in subsidiary is accounted for at cost less any impairment losses. The policy for the recognition and measurement of impairment losses is in accordance with Note 2(l) below. On disposal of such investment, the difference between the net disposal proceeds and its carrying amount is included in profit or loss. Dividend income received from subsidiary is recognised in profit or loss on the date that the Bank's right to receive payment is established.

(ii) Business combination

Subsidiaries are consolidated from the date of acquisition, being the date on which the Bank Group obtains control, and continue to be consolidated until the date that such control ceases. The assessment of control is performed continuously to determine if control exists or continues to exist over an entity. Acquisitions of subsidiaries are accounted for using the acquisition method of accounting. The identifiable assets acquired and the liabilities assumed are measured at their fair values at the acquisition date. Acquisition costs are expensed as incurred and included in administrative expenses.

The difference between these fair values and the fair value of the consideration (including the fair value of any pre-existing investment in the acquiree) is goodwill or discount on acquisition. Discount on acquisition which represents gain on bargain purchase is recognised immediately in profit or loss.

2. Summary of significant accounting policies (cont'd.)

(b) Basis of consolidation (cont'd.)

(ii) Business combination (cont'd.)

In business combinations achieved in stages, previously held equity interest in the acquiree is remeasured to fair value at the acquisition date and any corresponding gain or loss is recognised in profit or loss.

For each business combination, the Bank Group elects whether to measure the non-controlling interest in the acquiree at the acquisition date either at fair value or at the proportionate share of the acquiree's identifiable net assets.

Changes in the Bank Group's equity interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions between the Bank Group and its non-controlling interest holders. Any difference between the Bank Group's share of net assets before and after the changes and any consideration received as paid, is adjusted to or against the Bank Group's reserves.

If the Bank Group loses control over a subsidiary, at the date the Bank Group loses control, it:

- derecognises the assets (including goodwill) and liabilities of the subsidiary at their respective carrying amounts;
- derecognises the carrying amount of any non-controlling interest;
- derecognises the cumulative translation differences recorded in equity;
- recognises the fair value of the consideration or distribution received;
- recognises the fair value of any investment retained;
- recognises any surplus or deficit in profit or loss; and
- reclassifies the parent's share of components previously recognised in other comprehensive income to profit or loss or retained earnings, as appropriate.

(c) Joint ventures

Joint ventures are corporations, partnerships or other entities over which there is contractually agreed sharing of control by the Bank with one or more parties where the strategic financial and operating decisions relating to the entities require unanimous consent of the parties sharing control and the Bank has rights over the net assets of the arrangements.

Investments in joint ventures are measured in the Bank's statement of financial position at cost less impairment losses, unless the investment is classified as held for distribution. The cost of investment includes transaction costs.

2. Summary of significant accounting policies (cont'd.)

(d) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

Unrealised gains arising from transactions with equity-accounted associates and joint ventures are eliminated against the investment to the extent of the Bank Group's interest in the investees. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

(e) Intangible assets

Intangible assets acquired separately are measured initially at cost. The cost of intangible assets acquired in a business combination is their fair value as at the date of acquisition. Following initial acquisition, intangible assets are measured at cost less any accumulated amortisation and any accumulated impairment losses.

Intangible assets with finite useful lives are amortised over the estimated useful lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method are reviewed at least at each financial year-end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite useful lives is recognised in profit or loss.

Intangible assets with indefinite useful lives, or which are not yet available for use, are tested for impairment annually, or more frequently if the events and circumstances indicate that the carrying amount may be impaired either individually or at the cash-generating unit level. Such intangible assets are not amortised. The useful life of an intangible asset with an indefinite useful life is reviewed annually to determine whether the useful life assessment continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in profit or loss when the asset is derecognised.

2. Summary of significant accounting policies (cont'd.)

(e) Intangible assets (cont'd.)

Software licences

The useful life of software licences is assessed to be finite and is amortised on a straight-line basis over 5 years.

(f) Property and equipment and depreciation

All items of property and equipment are initially recorded at cost. The cost of an item of property and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Bank Group and the Bank in which the cost of the item can be measured reliably.

Subsequent to recognition, property and equipment are measured at cost less any accumulated depreciation and any accumulated impairment losses. When significant parts of property and equipment are required to be replaced, the Bank Group and the Bank recognise such parts as individual assets with specific useful lives and depreciation. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the property and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred.

Depreciation of property and equipment is provided for on a straight-line basis to write down the cost of each asset to its residual value over the estimated useful life from the date they are available for use. The estimated useful life is as follows:

Building renovation	5 years
Furniture and equipment	5 years
Motor vehicles	5 years
Data processing equipment	5 years

The carrying amounts of property and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying amounts may not be recoverable.

The residual values, useful lives and depreciation methods are reviewed at end of the reporting period, and adjusted prospectively, if appropriate.

An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on derecognition of the asset is included in profit or loss in the year the asset is derecognised.

(g) Leases

The Bank Group and the Bank have applied MFRS 16 using the modified retrospective approach, which requires the recognition of the cumulative effect of initially applying MFRS 16 to the retained earnings brought forward and not to restate prior year comparatives information as previously reported under MFRS 117, *Leases* and related interpretations. The Bank Group and the Bank also do not recognise lease arrangements for which the lease term ends within 12 months of the date of initial application. The Bank Group and the Bank have elected, on a lease-by-lease basis, to recognise the right-of-use assets at the amount equal to the lease liabilities, hence there were no impact to the retained earnings brought forward as at 1 January 2019.

2. Summary of significant accounting policies (cont'd.)

(g) Leases (cont'd.)

Current financial year

(i) Definition of a lease

A contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Bank Group and the Bank assess whether:

- the contract involves the use of an identified asset - this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- the customer has the right to obtain substantially all of the economic benefits from the use of the asset throughout the period of use; and
- the customer has the right to direct the use of the asset. The customer has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the customer has the right to direct the use of the asset if either the customer has the right to operate the asset; or the customer designed the asset in a way that predetermines how and for what purpose it will be used.

At inception or on reassessment of a contract that contains a lease component, the Bank Group and the Bank allocate the consideration in the contract to each lease and non-lease component on the basis of their relative stand-alone prices. However, for leases of properties in which the Bank Group or the Bank is a lessee, they have elected not to separate non-lease components and will instead account for the lease and non-lease components as a single lease component.

(ii) Recognition and initial measurement

(a) As a lessee

The Bank Group and the Bank recognise a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the profit rate implicit in the lease or, if that rate cannot be readily determined, the respective Bank Group and the Bank entities' incremental borrowing rate. Generally, the Bank Group and the Bank entities use their incremental borrowing rate as the discount rate.

2. Summary of significant accounting policies (cont'd.)

(g) Leases (cont'd.)

Current financial year (cont'd.)

(ii) Recognition and initial measurement (cont'd.)

(a) As a lessee (cont'd.)

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments less any incentives receivables;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee;
- the exercise price under a purchase option that the Bank Group and the Bank are reasonably certain to exercise; and
- penalties for early termination of a lease unless the Bank Group and Bank are reasonably certain not to terminate early.

The Bank Group and the Bank exclude variable lease payments that linked to future performance or usage of the underlying asset from the lease liability. Instead, these payments are recognised in profit or loss in the period in which the performance or use occurs.

The Bank Group and the Bank have elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less. The Bank Group and the Bank recognise the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

(b) As a lessor

When the Bank Group or the Bank acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To clarify each lease, the Bank Group and the Bank make an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease.

If an arrangement contains lease and non-lease components, the Bank Group and the Bank apply MFRS 15 to allocate the consideration in the contract based on the stand-alone selling prices.

The Bank Group and the Bank recognise assets held under a finance lease in its statement of financial position and presents them as a receivable at an amount equal to the net investment in the lease. The Bank Group and the Bank use the profit rate implicit in the lease to measure the net investment in the lease.

When the Bank Group or the Bank is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. It assesses the lease classification of a sublease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Bank Group or the Bank applies the exemption described above, then it classifies the sublease as an operating lease.

2. Summary of significant accounting policies (cont'd.)

(g) Leases (cont'd.)

Current financial year (cont'd.)

(iii) Subsequent measurement

(a) As a lessee

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is measured at amortised cost using the effective profit method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a revision of in-substance fixed lease payments, or if there is a change in the Bank Group and the Bank's estimate of the amount expected to be payable under a residual value guarantee, or if the Bank Group and the Bank change their assessment of whether they will exercise a purchase, extension or termination option.

When the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

(b) As a lessor

The Bank Group and the Bank recognise lease payments received under operating leases as income on a straight-line basis over the lease term as part of "revenue".

Previous financial year

As a lessee

(i) Finance lease

Leases in terms of which the Bank Group or the Bank assumed substantially all the risks and rewards of ownership were classified as finance leases. Upon initial recognition, the leased asset was measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset was accounted for in accordance with the accounting policy applicable to the asset.

Minimum lease payments made under finance leases were apportioned between the finance expense and the reduction of the outstanding liability. The finance expense was allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent lease payments were accounted for by revising the minimum lease payments over the remaining term of the lease when the lease adjustment was confirmed.

2. Summary of significant accounting policies (cont'd.)

(g) Leases (cont'd.)

Previous financial year (cont'd.)

As a lessee (cont'd.)

(i) Finance lease (cont'd.)

Leasehold land which in substance was a finance lease was classified as property, plant and equipment, or as investment property if held to earn rental income or for capital appreciation or for both.

(ii) Operating lease

Leases, where the Bank Group or the Bank did not assume substantially all risks and rewards of ownership were classified as operating leases and, except for property interest held under operating lease, the leased assets were not recognised on the statement of financial position. Property interest held under an operating lease, which was held to earn rental income or for capital appreciation or both, was classified as investment property and measured using fair value model.

Payments made under operating leases were recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives received were recognised in profit or loss as an integral part of the total lease expense, over the term of the lease. Contingent rentals were charged to profit or loss in the reporting period in which they were incurred.

Leasehold land which in substance was an operating lease was classified as prepaid lease payments.

(h) Investment property

Investment property, comprising only freehold land is held for capital appreciation, and is not occupied by the Bank.

The investment property is initially recognised at cost and subsequently at cost less any accumulated impairment losses. The carrying amount of the investment property is reviewed at the end of each reporting period to determine whether there is any indication of impairment based on market value determined by independent qualified valuers. Right-of-use asset held under a lease contract that meets the definition of investment property is initially measured similarly as other right-of-use assets.

An investment property is derecognised on its disposal, or when it is permanently withdrawn from use and no future economic benefits are expected from its disposal. The difference between net disposal proceeds and the carrying amount is recognised in profit or loss in the period in which the item is derecognised.

2. Summary of significant accounting policies (cont'd.)

(i) Employee benefits

(i) Short-term benefits

Wages, salaries, bonuses and social security contributions are measured on an undiscounted basis and are expensed in the year in which the associated services are rendered by employees of the Bank Group and of the Bank. Short-term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences. Short-term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

(ii) Defined contribution plans

As required by law, companies in Malaysia make contributions to the EPF, a defined contribution pension scheme. Such contributions are recognised as an expense in profit or loss when incurred.

(j) Provisions

Provisions are recognised when the Bank Group and the Bank have a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be estimated reliably.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

(k) Cash and cash equivalents

Cash and short-term funds in the statements of financial position consist of cash and balances with banks and other financial institutions, money at call and deposit placements with banks and other financial institutions which have an insignificant risk of changes in fair value with original maturities of one month or less.

For the purposes of the statements of cash flows, cash and cash equivalents consist of cash and short-term funds as defined above.

(l) Impairment of non-financial assets

The Bank Group and the Bank assess at the end of each reporting period whether there is an indication that an asset may be impaired. If any such indication exists, or when an annual impairment assessment for an asset is required, the Bank Group and the Bank make an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's fair value less costs of disposal and its value in use. For the purpose of assessing impairment, assets are grouped at the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets.

2. Summary of significant accounting policies (cont'd.)

(l) Impairment of non-financial assets (cont'd.)

In assessing value in use, the estimated future cash flows expected to be generated by the asset are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where the carrying amount of an asset exceeds its recoverable amount, the asset is written down to its recoverable amount.

An impairment loss is recognised in profit or loss if the carrying amount of an asset exceeds its estimated recoverable amount.

An assessment is made at the end of each reporting period as to whether there is any indication that a previously recognised impairment loss may no longer exist or may have decreased. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increase cannot exceed the carrying amount that would have been determined, net of depreciation and/or amortisation, had no impairment loss been recognised previously. Such reversal is recognised in profit or loss. Impairment loss on goodwill is not reversed in a subsequent period.

(m) Financial instruments

(i) Recognition and initial measurement

A financial asset or a financial liability is recognised in the statements of financial position when, and only when, the Bank Group or the Bank becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without significant financing component) or a financial liability is initially measured at fair value plus or minus, for an item not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition or issuance. A trade receivable without a significant financing component is initially measured at the transaction price.

(ii) Financial instrument categories and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at: amortised cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL").

Financial assets are not reclassified subsequent to their recognition unless the Bank Group or the Bank changes its business model for managing assets.

a) Business model assessment

The Bank Group and the Bank make an assessment of the objective of the business model ("BM") in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management.

2. Summary of significant accounting policies (cont'd.)

(m) Financial instruments (cont'd.)

(ii) Financial instrument categories and subsequent measurement (cont'd.)

Financial assets (cont'd.)

a) Business model assessment (cont'd.)

The Bank Group and the Bank consider all relevant evidence that is available at the date of the assessment. Such relevant evidence includes, but is not limited to:

- i) the stated policies and objectives for the portfolio and the operation of those policies in practice. In particular, whether management's strategy focuses on earning contractual profit revenue, maintaining a particular profit rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising cash flows through the sale of the assets;
- ii) how the performance of the portfolio (and the financial assets held within) is evaluated and reported to the management;
- iii) the risks that affect the performance of the portfolio (and the financial assets held within) and, in particular, the way that those risks are managed;
- iv) how managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or the contractual cash flows collected); and
- v) the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Bank Group and the Bank's stated objective for managing the financial assets is achieved and how cash flows are realised.

Financial assets that are held for trading or managed and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

b) Assessment of whether contractual cash flows are solely payments of principal and profit ("SPPI")

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Profit' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

2. Summary of significant accounting policies (cont'd.)

(m) Financial instruments (cont'd.)

(ii) Financial instrument categories and subsequent measurement (cont'd.)

Financial assets (cont'd.)

b) Assessment of whether contractual cash flows are solely payments of principal and profit ("SPPI") (cont'd.)

In assessing whether the contractual cash flows are SPPI, the Bank Group and the Bank consider the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Bank Group and the Bank consider:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Bank Group and the Bank's claim to cash flows from specified assets (e.g. non-recourse financing); and
- features that modify consideration of the time value of money (e.g. periodical reset of profit rates).

c) Financial assets measured at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI on the principal amount outstanding.

Subsequent to initial recognition, these financial assets are measured at amortised cost using the effective profit method. The amortised cost is reduced by any impairment losses. Profit income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Profit income is recognised by applying effective profit rate to the gross carrying amount except for credit-impaired financial assets where the effective profit rate is applied to the amortised cost.

Included in financial assets measured at amortised cost are Sukuk Commodity Murabahah, financing and advances based on Shariah contracts of Tawarruq, Bai', Ijarah and Istisna'.

2. Summary of significant accounting policies (cont'd.)

(m) Financial instruments (cont'd.)

(ii) Financial instrument categories and subsequent measurement (cont'd.)

Financial assets (cont'd.)

d) Financial assets measured at fair value through other comprehensive income ("FVOCI")

(i) Debt investments

This category comprises debt investment where it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the debt investment, and its contractual terms give rise on specified dates to cash flows that are SPPI on the principal amount outstanding. The debt investment is not designated as at FVTPL. Profit income calculated using the effective profit method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in other comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income are reclassified to profit or loss.

(ii) Equity investments

This category comprises investment in equity that is not held for trading, and the Bank Group and the Bank may irrevocably elect to present subsequent changes in the investment's FVOCI. This election is made on an investment by investment basis. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of investment. Other net gains and losses are recognised in other comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income are not reclassified to profit or loss.

e) Financial assets measured at fair value through profit or loss ("FVTPL")

All financial assets not measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes derivative financial assets (except for a derivative that is a designated and effective hedging instrument). On initial recognition, the Bank Group or the Bank may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

2. Summary of significant accounting policies (cont'd.)

(m) Financial instruments (cont'd.)

(ii) Financial instrument categories and subsequent measurement (cont'd.)

Financial assets (cont'd.)

e) Financial assets measured at fair value through profit or loss ("FVTPL") (cont'd.)

Financial assets categorised as FVTPL are subsequently measured at their fair value. Net gains or losses, including any profit or dividend income, are recognised in the profit or loss.

All financial assets, except for those measured at FVTPL and equity investments measured at FVOCI, are subject to impairment assessment (Note 2(n)).

Financial liabilities

The categories of financial liabilities at initial recognition are as follows:

a) Financial liabilities measured at amortised cost

Other financial liabilities not categorised as FVTPL are subsequently measured at amortised cost using the effective profit method.

Profit expense and foreign exchange gains and losses are recognised in the profit or loss. Any gains or losses on derecognition are also recognised in the profit or loss.

b) Financial liabilities measured at fair value through profit or loss ("FVTPL")

FVTPL category comprises financial liabilities that are derivatives (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument) and financial liabilities that are specifically designated into this category upon initial recognition.

On initial recognition, the Bank Group or the Bank may irrevocably designate a financial liability that otherwise meets the requirements to be measured at amortised cost as at FVTPL:

- i) if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise;

2. Summary of significant accounting policies (cont'd.)

(m) Financial instruments (cont'd.)

(ii) Financial instrument categories and subsequent measurement (cont'd.)

Financial liabilities (cont'd.)

b) Financial liabilities measured at fair value through profit or loss ("FVTPL") (cont'd.)

- ii) a group of financial liabilities or assets and financial liabilities is managed and its performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy, and information about the group is provided internally on that basis to the Bank Group and the Bank's key management personnel; or
- iii) if a contract contains one or more embedded derivatives and the host is not a financial asset in the scope of MFRS 9, where the embedded derivative significantly modifies the cash flows and separation is not prohibited.

Financial liabilities categorised as FVTPL are subsequently measured at their fair value with gains or losses, including any profit expense are recognised in the profit or loss.

For financial liabilities where it is designated as FVTPL upon initial recognition, the Bank Group and the Bank recognise the amount of change in fair value of the financial liability that is attributable to change in credit risk in the other comprehensive income and remaining amount of the change in fair value in the profit or loss, unless the treatment of the effects of changes in the liability's credit risk would create or enlarge an accounting mismatch.

The Bank Group and Bank's financial liabilities

The financial liabilities include Sukuk - MBSB SC Murabahah, Sukuk Wakalah, other payables, bank and other borrowings, recourse obligations on financing sold to Cagamas Berhad, deposits from customers and deposits and placements of banks and other financial institutions. The deposits are stated at placement value.

Sukuk - MBSB SC Murabahah and Sukuk Wakalah are classified as other financial liabilities as there are contractual obligation by the Bank Group or the Bank to make cash payments of either principal or profit or both to holders of the Sukuk and the Bank Group or the Bank is contractually obliged to settle the financial instrument in cash.

Subsequent to initial recognition, Sukuk issued is recognised at amortised cost, with any difference between proceeds net of transaction costs and the redemption value being recognised in profit or loss over the period of the Sukuk using the effective profit method.

Other payables are recognised initially at fair value plus directly attributable transaction costs and subsequently measured at amortised cost using the effective profit method.

Bank and other borrowings and recourse obligations on financing sold to Cagamas Berhad are recognised initially at fair value, net of transaction costs incurred, and subsequently measured at amortised cost using the effective profit method.

2. Summary of significant accounting policies (cont'd.)

(m) Financial instruments (cont'd.)

(iii) Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

Financial guarantees issued are initially measured at fair value. Subsequently, they are measured at higher of:

- (a) the amount of the loss allowance; and
- (b) the amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance to the principles of MFRS 15, *Revenue from Contracts with Customers*.

Liabilities arising from financial guarantees are included within "expected credit losses for commitment and contingencies" under other payables.

(iv) Derecognition

A financial asset or part of it is derecognised when, and only when the contractual rights to the cash flows from the financial asset expire or the financial asset is transferred to another party without retaining control or substantially all risks and rewards of the asset. On derecognition of a financial asset, the difference between the carrying amount and the sum of the consideration received (including any new asset obtained less any new liability assumed) is recognised in profit or loss.

A financial liability or a part of it is derecognised when, and only when, the obligation specified in the contract is discharged, cancelled or expires. On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

(v) Modifications of financial assets and financial liabilities

Financial assets

Modification of financial assets involves any modification made to the original payment terms and conditions of the financing facility following an increase in the credit risk of the customer. This includes but is not limited to an extension of tenure and flexible payment schedule including payment vacation, profit only payments, or capitalisation of principal or profit or both.

2. Summary of significant accounting policies (cont'd.)

(m) Financial instruments (cont'd.)

(v) Modifications of financial assets and financial liabilities (cont'd.)

Financial assets (cont'd.)

Once the financing assets have been modified, its satisfactory performance is monitored for a period of six months before it can be reclassified as non-credit impaired.

However, the financial assets will not be considered as modified if moratorium on financing repayments is granted or the financing is rescheduled/restructured by Agensi Kaunseling & Pengurusan Kredit ("AKPK").

The Bank Group and the Bank evaluate whether the cash flows of the modified asset are substantially different if the terms of a financial asset are modified.

If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognised and a new financial asset is recognised at fair value.

If the cash flows of the modified asset carried at amortised cost or FVOCI are not substantially different, the modification does not result in derecognition of the financial asset. In this case, the Bank Group and the Bank recalculate the gross carrying amount of the financial asset using the original effective profit rate of the asset and recognises the amount arising from adjusting the gross carrying amount as a modification gain or loss in profit or loss.

If such a modification is carried out because of financial difficulties of the borrower, then the gain or loss is presented together with impairment losses. In other cases, it is presented as profit income, calculated using the effective profit rate method.

Financial liabilities

The Bank Group and the Bank derecognise a financial liability when its terms are modified and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

If the modification of a financial liability is not accounted for as derecognition, then the amortised cost of the liability is recalculated by discounting the modified cash flows at the original effective profit rate and the resulting gain or loss is recognised in profit or loss.

2. Summary of significant accounting policies (cont'd.)

(m) Financial instruments (cont'd.)

(vi) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statements of financial position when, and only when, the Bank Group and the Bank currently have a legally enforceable right to set off the amounts and they intend either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

(vii) Fair value of financial assets and liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal market for the asset or liability, or in the absence of a principal market, the most advantageous market to which the Bank Group and the Bank have access at that date. The fair value of a liability includes the risk that the Bank Group and the Bank will not be able to honour its obligations.

The fair value of financial instruments is generally measured on the basis of the individual financial instrument. However, when a group of financial assets and financial liabilities is managed on the basis of its net exposure to either market risk or credit risk, the fair value of the group of financial instruments is measured on a net basis.

The fair values of quoted financial assets and liabilities in active markets are based on current prices. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. If the market for a financial instrument, and for unlisted securities, is not active, the Bank Group and the Bank establishes fair value by using valuation techniques.

(n) Impairment of financial assets

An impairment loss in respect of financial assets measured at amortised cost is recognised in profit or loss and the carrying amount of the asset is reduced through the use of an allowance account.

An impairment loss in respect of debt investments measured at FVOCI is recognised in profit or loss and accumulated in a separate component of equity.

Measurement

The Bank Group and the Bank recognise loss allowances for expected credit losses ("ECL") on financial assets measured at amortised cost and financial investments measured at FVOCI (debt securities), but not on investments in equity instruments. ECL are a probability-weighted estimate of credit losses.

2. Summary of significant accounting policies (cont'd.)

(n) Impairment of financial assets (cont'd.)

Measurement (cont'd.)

The Bank Group and the Bank measure loss allowances at an amount equal to lifetime ECL except for debt securities that are determined to have low credit risk at the reporting date and other financial instruments of which credit risk has not increased significantly since initial recognition, which are measured at 12-month ECL.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Bank Group and the Bank consider reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Bank Group's and the Bank's historical experience and informed credit assessment and including forward-looking information, where available.

The key inputs into the measurement of ECL are the term structure of the following variables:

- probability of default ("PD");
- loss given default ("LGD"); and
- exposure at default ("EAD").

ECL for exposures in Stage 1 is calculated by multiplying the 12-month PD by LGD and EAD. Lifetime ECL is calculated by multiplying the lifetime PD by LGD and EAD.

PD provides an estimate of the likelihood that a borrower will be unable to meet its debt obligation or default over a particular time horizon, usually in the course of 1 year.

LGD is the magnitude of the likely loss if there is a default. The Bank Group and the Bank estimate LGD parameters based on the history of recovery rates of claims against defaulted counterparties. The LGD models consider the structure, collateral, seniority of the claim, counterparty industry and recovery costs of any collateral that is integral to the financial asset.

EAD represents the expected exposure in the event of a default. The Bank Group and the Bank derive the EAD from the current exposure to the counterparty and potential changes to the current amount allowed under the contract and arising from amortisation. The EAD of a financial asset is its gross carrying amount at the time of default. For lending commitments, the EADs are potential future amounts that may be drawn under the contract, which are estimated based on historical observations and forward-looking forecasts. For financial guarantees, the EAD represents the amount of the guaranteed exposure when the financial guarantee becomes payable. For some financial assets, EAD is determined by modelling the range of possible exposure outcomes at various points in time using scenario and statistical techniques.

As described above, and subject to using a maximum of a 12-month PD for Stage 1 financial assets, the Bank Group and the Bank measure ECL considering the risk of default over the maximum contractual period (including any borrower's extension options) over which they are exposed to credit risk, even if, for credit risk management purposes, the Bank Group and the Bank consider a longer period. The maximum contractual period extends to the date at which the Bank Group and the Bank have the right to require repayment of an advance or terminate a financing commitment or guarantee.

2. Summary of significant accounting policies (cont'd.)

(n) Impairment of financial assets (cont'd.)

Measurement (cont'd.)

However, for facilities that include both a financing and an undrawn commitment component, the Bank Group and the Bank measure ECL over a period longer than the maximum contractual period if the Bank Group and the Bank's contractual ability to demand repayment and cancel the undrawn commitment does not limit the Bank Group's and the Bank's exposure to credit losses to the contractual notice period. These facilities do not have a fixed term or repayment structure. The Bank Group and the Bank can cancel them with immediate effect but this contractual right is not enforced in the normal day-to-day management, but only when the Bank Group and the Bank become aware of an increase in credit risk at the facility level. This longer period is estimated taking into account the credit risk management actions that the Bank Group and the Bank expect to take, and that serve to mitigate ECL. These include a reduction in limits, cancellation of the facility and/or turning the outstanding balance into a financing with fixed repayment terms.

Where modelling of a parameter is carried out on a collective basis, the financial instruments are grouped on the basis of shared risk characteristics that include but not limited to:

- instrument type;
- credit risk gradings;
- collateral type;
- financing-to-value ("FTV") ratio for retail property financing;
- date of initial recognition;
- remaining term to maturity;
- industry; and
- geographic location of the borrower.

The groupings are subject to regular review to ensure that exposures within a particular group remain appropriately homogeneous. For portfolios in respect of which the Bank Group and the Bank have limited historical data, external benchmark information is used to supplement the internally available data.

2. Summary of significant accounting policies (cont'd.)

(n) Impairment of financial assets (cont'd.)

Recognition

Lifetime ECL is the ECL that results from all possible default events over the expected life of the asset, while 12-month ECL are the portion of ECL that result from default events that are possible within the 12 months after the reporting date. The maximum period considered when estimating ECL is the maximum contractual period over which the Bank Group and the Bank are exposed to credit risk.

Financial assets are segregated into 3 stages depending on the changes in credit quality since initial recognition.

Stage 1 includes financial assets that do not have a significant increase in credit risk since initial recognition or those that have low credit risk at reporting date. For these assets, 12-month ECL are recognised and profit income is calculated on the gross carrying amount of the assets.

Stage 2 includes financial assets that have a significant increase in credit risk since initial recognition but do not have objective evidence of impairment. For those assets, lifetime ECL is recognised and profit income is still calculated on the gross carrying amount of the asset.

Stage 3 includes financial assets that have objective evidence of impairment at reporting date. For these assets, lifetime ECL is recognised and profit income is calculated on the net carrying amount.

Significant increase in credit risk ("SICR")

Obligatory triggers applied by the Bank Group and the Bank in determining whether there has been a significant increase in credit risk is where the principal or profit or both of the financing assets are overdue for more than 1 month, after grace period, but less than 3 months or hit any of the qualitative indicators but not limited to increase in internal credit spread of an existing facility, breach of covenants and decrease in securities prices.

The credit risk may also be deemed to have increased significantly since initial recognition based on qualitative factors linked to the Bank Group and the Bank's credit risk management processes. This will be the case for exposures that meet certain heightened risk criteria, such as placement on a watchlist. Such qualitative factors are based on the management's expert judgement and relevant historical experiences.

The Bank Group and the Bank determine days past due by counting the number of days since the earliest elapsed due date in respect of which full payment has not been received.

2. Summary of significant accounting policies (cont'd.)

(n) Impairment of financial assets (cont'd.)

Significant increase in credit risk ("SICR") (cont'd.)

If there is evidence that there is no longer a significant increase in credit risk relative to initial recognition, then the loss allowance on a financial asset returns to being measured as 12-month ECL. Some qualitative indicators of an increase in credit risk, such as delinquency or forbearance, may be indicative of an increased risk of default that persists after the indicator itself has ceased to exist. In these cases, the Bank Group and the Bank determine a probation period during which the financial asset is required to demonstrate good behaviour to provide evidence that its credit risk has declined sufficiently. When contractual terms of a financing have been modified, evidence that the criteria for recognising lifetime ECL are no longer met includes a history of up-to-date payment performance against the modified contractual terms.

Credit-impaired (Default)

At each reporting date, the Bank Group and the Bank assess whether financial assets carried at amortised cost and debt securities at FVOCI are credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

The Bank Group and the Bank consider a financial asset to be in default when:

(a) Payment conduct

- Where the principal or profit or both of the financing is past due for more than ninety (90) days or three (3) months;
- In the case of revolving facilities (e.g. revolving working capital or overdraft facilities), notwithstanding the first trigger above, where the outstanding amount has remained in excess of the approved limit for a period of more than ninety (90) days or three (3) months;
- Where payments are scheduled on intervals of three (3) months or longer, the account shall be classified as impaired as soon as a default occurs (i.e. when the customer is unable to meet the contractual payment terms), unless it does not exhibit any weakness that would render it classified as impaired according to the Bank Group and the Bank's credit risk grading framework.

(b) Restructured and rescheduled ("R&R") financing; or

(c) Customer/Issuer is declared bankrupt/wound up.

2. Summary of significant accounting policies (cont'd.)

(n) Impairment of financial assets (cont'd.)

Credit-impaired (Default) (cont'd.)

In assessing whether a borrower is in default, the Bank Group and the Bank consider indicators that are:

- qualitative: e.g. breaches of covenant;
- quantitative: e.g. overdue status and non-payment on another obligation of the same issuer to the Bank Group or the Bank; and
- based on data developed internally and obtained from external sources.

Inputs into the assessment of whether a financial asset is in default and their significance may vary over time to reflect changes in circumstances. The definition of default largely aligns with that applied by the Bank Group and the Bank for regulatory capital purposes.

ECL against credit-impaired financial assets are determined based on an assessment of the recoverable cash flows, including the realisation of any collateral held where appropriate. The ECL held represent the difference between the present value of the cash flows expected to be recovered, discounted at the instrument's original effective profit rate, and the gross carrying amount of the instrument prior to any credit impairment.

Restructured financial assets

If the terms of a financial asset are renegotiated or modified or an existing financial asset is replaced with a new one due to financial difficulties of the borrower, then an assessment is made of whether the financial asset should be derecognised and ECL are measured as follows:

- If the expected restructuring will not result in derecognition of the existing asset, then the expected cash flows arising from the modified financial asset are included in calculating the cash shortfalls from the existing asset.
- If the expected restructuring will result in derecognition of the existing asset, then the expected fair value of the new asset is treated as the final cash flow from the existing financial asset at the time of its derecognition. This amount is included in calculating the cash shortfalls from the existing financial asset that are discounted from the expected date of derecognition to the reporting date using the original effective profit rate of the existing financial asset.

ECL for restructured financial assets that are not considered to be credit-impaired will be recognised on 12-month basis. However, if there is a significant increase in credit risk, the ECL will be recognised on a lifetime basis.

2. Summary of significant accounting policies (cont'd.)

(n) Impairment of financial assets (cont'd.)

Incorporation of forward-looking information

MFRS 9 specifically requires measurement of ECL using not only past and current information, but also including forecast information. Hence, the ECL calculations include forward-looking adjustment according to the expected future macroeconomic conditions. Forward-looking adjustment incorporated within the ECL model is a combination of statistical analysis and expert judgements based on the availability of detailed information. External information considered includes economic data and forecasts published by external rating agencies.

Key macroeconomic variables ("MEV") that are incorporated into the ECL calculations include, but not limited to House Price Index ("HPI") and Consumer Price Index ("CPI"). Forward-looking MEVs are supported with 3 economic scenarios i.e. baseline, best and worst case scenarios of forecast based on the available forecasts.

Methodology and assumptions including forecasts of future economic conditions are reviewed regularly.

Write-down/write-off

Financial assets and related impairment allowances are normally written down/written off, either partially or in full, when there is no realistic prospect of recovery of the financial assets. This is generally the case when the Bank Group and the Bank determine that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-down/write-off. This assessment is carried out at the individual asset level. Where financial assets are secured, the write-down/write-off is normally done after receipt of any proceeds from the realisation of security.

Financial assets that are written down/written off could still be subject to enforcement activities in order to comply with the Bank Group and the Bank's procedures for recovery of amounts due.

(o) Equity instruments

Ordinary shares are classified as equity. Dividends on ordinary shares are recognised as a liability and deducted from equity in the period in which all relevant approvals have been obtained.

The transaction costs of an equity transaction are accounted for as a deduction from equity, net of tax. Equity transaction costs comprise only those incremental external costs directly attributable to the equity transaction which would otherwise have been avoided.

2. Summary of significant accounting policies (cont'd.)

(p) Recognition of income

Revenue is recognised to the extent that it is probable that the economic benefit will flow to the Bank Group and/or the Bank and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

(i) Profit income and profit expense

Profit income and profit expense are recognised in profit or loss for all profit-bearing assets and liabilities using the effective profit method.

The effective profit method is a method of calculating the amortised cost of a financial asset or a financial liability and of allocating the profit income or profit expense over the relevant period. The effective profit rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instruments or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective profit rate, the Bank takes into account all contractual terms of the financial instrument and includes any fees or incremental costs that are directly attributable to the instrument and are an integral part of the effective profit rate, but not future credit losses.

Profit on impaired financial assets is recognised using the rate of profit used to discount the future cash flows for the purpose of measuring the impairment loss.

Murabahah income is recognised on effective profit rate basis over the period of the contract based on the financing amounts disbursed. Ijarah income is recognised on effective profit rate basis over the lease term of the financing amount. Tawarruq income is essentially Murabahah contract based income and therefore recognised on the same basis as Murabahah income. Istisna' income is also recognised on effective profit rate basis over the contractual period based on financing amount disbursed.

(ii) Fee income

Financing arrangement fees, commissions and insurance fees are recognised as income at the time the underlying transactions are completed and there are no other contingencies associated with the fees.

Commitment and processing fees are recognised as income based on the amortised cost method.

(iii) Dividend income

Dividend income is recognised when the Bank Group and/or the Bank's right to receive payment is established.

(iv) Other income

Other income is recognised upon invoices being issued and services rendered.

2. Summary of significant accounting policies (cont'd.)

(q) Income tax

(i) Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the end of reporting period.

Current tax is recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity.

(ii) Deferred tax

Deferred tax is provided using the liability method on temporary differences at the end of each reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, unused tax credits and unused tax losses, to the extent that it is probable that taxable profits will be available against which the deductible temporary differences, and the unused tax credits and unused tax losses can be utilised except:

- where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

2. Summary of significant accounting policies (cont'd.)

(q) Income tax (cont'd.)

(ii) Deferred tax (cont'd.)

- in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profits will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the end of each reporting period.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity and deferred tax arising from a business combination is adjusted against goodwill on acquisition.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

(r) Zakat

This represents business zakat that is paid on the Bank's portion. It is an obligatory amount payable by the Bank Group and the Bank to comply with the rules and principles of Shariah. The zakat is computed based on working capital method at a rate of 2.5%. The beneficiaries of zakat fund include schools, mosques, universities and non-government organisations.

The obligation and responsibility of specific payment of zakat on deposit fund lies with the muslim depositors of the Bank. As such, no accrual of zakat expenses is recognised in the financial statements of the Bank.

(s) Earnings per ordinary share

The Bank Group and the Bank present the basic earnings per share ("EPS") data for their ordinary shares.

Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Bank Group and the Bank by the weighted average number of ordinary shares outstanding during the year.

2. Summary of significant accounting policies (cont'd.)

(t) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability; or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Bank Group and the Bank use valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities that the Bank Group and the Bank can access at the measurement date;
- Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Bank Group and the Bank determine whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

3. Changes in accounting policies

(a) MFRSs, interpretation and amendments effective for annual periods on or after 1 January 2019

On 1 January 2019, where applicable, the Bank Group and the Bank adopted the following MFRSs and Amendments to MFRSs mandatory for annual financial periods beginning on or after 1 January 2019:

- MFRS 16, *Leases*
- IC Interpretation 23, *Uncertainty over Income Tax Treatments*
- Amendments to MFRS 3, *Business Combinations (Annual Improvements to MFRS Standards 2015-2017 Cycle)*
- Amendments to MFRS 9, *Financial Instruments - Prepayment Features with Negative Compensation*
- Amendments to MFRS 11, *Joint Arrangements (Annual Improvements to MFRS Standards 2015-2017 Cycle)*
- Amendments to MFRS 112, *Income Taxes (Annual Improvements to MFRS Standards 2015-2017 Cycle)*
- Amendments to MFRS 119, *Employee Benefits - Plan Amendment, Curtailment or Settlement*
- Amendments to MFRS 123, *Borrowing Costs (Annual Improvements to MFRS Standards 2015-2017 Cycle)*
- Amendments to MFRS 128, *Investments in Associates and Joint Ventures - Long-term Interests in Associates and Joint Ventures*

The adoption of the new and revised MFRSs and interpretation did not result in any significant impact on the financial statements of the Bank Group and of the Bank except for effects of adopting MFRS 16, *Leases* which is further discussed in Note 18.

3. Changes in accounting policies (cont'd.)

(b) MFRSs, interpretations and amendments issued but not yet effective

The following are accounting standards, interpretations and amendments of the MFRSs that have been issued by the Malaysian Accounting Standards Board ("MASB") but have not been adopted by the Bank Group and the Bank:

MFRSs, interpretations and amendments effective for annual periods beginning on or after 1 January 2020

- Amendments to MFRS 3, *Business Combinations - Definition of a Business*
- Amendments to MFRS 101, *Presentation of Financial Statements* and MFRS 108, *Accounting Policies, Changes in Accounting Estimates and Errors – Definition of Material*
- Amendments to MFRS 9, *Financial Instruments*, MFRS 139, *Financial Instruments: Recognition and Measurement* and MFRS 7, *Financial Instruments: Disclosures – Interest Rate Benchmark Reform*

MFRSs, interpretations and amendments effective for annual periods beginning on or after 1 January 2021

- MFRS 17, *Insurance Contracts*

MFRSs, interpretations and amendments effective for annual periods beginning on or after 1 January 2022

- Amendments to MFRS 101, *Presentation of Financial Statements – Classification of Liabilities as Current or Non-current*

MFRSs, interpretations and amendments effective for annual periods beginning on or after a date yet to be confirmed

- Amendments to MFRS 10, *Consolidated Financial Statements* and MFRS 128, *Investments in Associates and Joint Ventures - Sale or Contribution of assets between an investor and its Associate or Joint Venture*

The Bank Group and the Bank plan to apply abovementioned accounting standards, interpretations and amendments from the annual period beginning on 1 January 2022 for those amendments that are effective for annual periods beginning on or after 1 January 2022.

The initial application of the abovementioned accounting standards, amendments and interpretations is not expected to have material financial impact to the current period and prior period financial statements of the Bank Group and the Bank.

4. Significant accounting estimates and judgements

The preparation of the financial statements in conformity with MFRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

4. Significant accounting estimates and judgements (cont'd.)

(a) Critical judgements made in applying accounting policies

The following are the judgements made by management in the process of applying the Bank Group and the Bank's accounting policies that have the most significant effect on the amount recognised in the financial statements.

Assessment of derecognition of Islamic personal financing ("PFI") sold to Jana Kapital Sdn. Bhd. ("JKSB")

In determining if the sale meets the derecognition criteria, management has evaluated the extent to which the Bank retains the risks and rewards of ownership of the PFI. As the Principal Terms and Conditions require the replacement of defaulted PFI with performing PFI by the Bank, management had concluded that the risks and rewards of ownership of the PFI continue to be retained by the Bank. Accordingly, the sale of the PFI to JKSB does not meet the criteria for derecognition and has not been derecognised in the financial statements of the Bank. Instead, an amount equivalent to the carrying amount of the pledged PFI has been recognised in the financial statements of the Bank as an amount due to JKSB included in other payables, and, conversely, in JKSB's books, an equivalent amount has been recognised as an amount due from the Bank. Management is of the opinion that the described accounting treatment provides a more comprehensive and accurate representation of the arrangement between the Bank and JKSB.

In line with the Principal Terms and Condition of the Sukuk-MBSB SC Murabahah programme of the Bank (as detailed in Note 10(a) and Note 10(b)), Sukuk-MBSB SC Murabahah and Sukuk Commodity Murabahah will be issued in tranches from time to time, as decided by management and each tranche is required to be backed by a portfolio of identified PFI held by JKSB.

(b) Key source of estimation uncertainty

The key assumption concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that has a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year, is discussed below:

Expected credit losses/Allowance for impairment of financing and advances and other receivables

The Bank Group and the Bank's ECL calculations involve a number of underlying assumptions and estimates such as:

- criteria that determine if there has been a significant increase in credit risk; and
- development of ECL models which includes the choice of inputs relating to the macroeconomic variables.

The calculation of credit impairment provisions also involves expert credit judgements to be applied by the credit risk management team based upon counterparty information from various sources including relationship managers and external market information.

The Bank Group and the Bank's significant accounting policies on the impairment of financial assets are disclosed in Note 2(n) and the amount of impairment losses provided by the Bank Group and the Bank is disclosed in Notes 9, 11 and 21.

5. Cash and short-term funds and deposits and placements with banks and other financial institutions

	Bank Group		Bank	
	2019 RM'000	2018 RM'000	2019 RM'000	2018 RM'000
(a) Cash and balances with banks and other financial institutions	135,579	179,508	133,322	174,556
Money at call and deposit placements maturing within one month	1,694,136	3,062,720	1,694,136	3,062,720
	1,829,715	3,242,228	1,827,458	3,237,276
(b) Deposits and placements with banks and other financial institutions with original maturity of more than one month				
Licensed Islamic banks	873,515	776,739	-	1,842
	2,703,230	4,018,967	1,827,458	3,239,118

The ECL for cash and short-term funds and deposits and placements with banks and other financial institutions above is nil (2018: nil).

6. Derivative financial assets/(liabilities)

The following table summarises the contractual or underlying principal amounts of derivative financial instruments held at FVTPL. The principal or contractual amount of these instruments reflects the volume of transactions outstanding at financial position date, and do not represent amounts at risk.

Trading derivative financial instruments are revalued on a gross position and the unrealised gains or losses are reflected as derivative financial assets and liabilities respectively.

	Bank Group and Bank					
	2019			2018		
	Notional amount RM'000	Fair value Assets RM'000	Liabilities RM'000	Notional amount RM'000	Fair value Assets RM'000	Liabilities RM'000
Trading derivatives						
<u>Foreign exchange contracts:</u>						
Currency forward						
- Less than one year	228,295	4,239	(1)	5,842	67	(2)

7. Financial investments at fair value through other comprehensive income ("FVOCI")

	Bank Group and Bank	
	2019	2018
	RM'000	RM'000
At fair value		
Money Market Instruments		
Malaysian Government Investment Issues	7,530,627	2,154,192
Debt securities:

Transport, storage and communication	3,754	287
Agriculture	169	154
Mining and quarrying	38,691	38,891
Education, health and others	72,535	88,331
	818,025	792,293

(xiii) Impaired financing and advances by geographical distribution

	Bank Group and Bank	
	2019	2018
	RM'000	RM'000
Malaysia	818,025	792,293

The credit risk of financial assets of the Bank Group and the Bank is mitigated by the collateral held against the financial assets and would reduce the extent of impairment allowance for the assets subject to impairment review. In this respect, the individual impairment allowance as at the reporting date would have been higher for the Bank Group and the Bank by approximately RM112,425,165 (2018: RM125,079,382) without the mitigating effect of collateral held.

10. Sukuk Commodity Murabahah and Sukuk-MBSB Structured Covered ("SC") Murabahah

(a) Sukuk Commodity Murabahah

	Bank	
	2019	2018
	RM'000	RM'000
Sukuk Commodity Murabahah	2,618,491	2,924,734
(i) By tranche		
Tranche 1	178,335	233,369
Tranche 2	484,197	564,411
Tranche 3	931,173	1,026,568
Tranche 4	1,024,786	1,100,386
	2,618,491	2,924,734

As part of the Bank's Sukuk-MBSB SC Murabahah programme ("the Programme"), JKSB, which is the Bank's subsidiary, issued an unconditional and irrevocable Covered Sukuk Guarantee to the holders of Sukuk-MBSB SC Murabahah. JKSB pledged an identified pool of PFI ("Tranche Cover Assets") sold by the Bank (refer Note 4(a)) as security for the Covered Sukuk Guarantee.

JKSB issued a Sukuk Commodity Murabahah to the Bank to raise funds necessary for the purchase of Tranche Cover Assets from the Bank. The salient terms of the Sukuk Commodity Murabahah are as follows:

- (i) The Sukuk Commodity Murabahah will be issued in Tranches corresponding to each Tranche of Sukuk-MBSB SC Murabahah;
- (ii) The tenure of the Sukuk Commodity Murabahah will be equivalent to the tenure of each Tranche of the Sukuk-MBSB SC Murabahah plus an additional year; and
- (iii) The profit rates of each Tranche of the Sukuk Commodity Murabahah will be equivalent to the profit rates of the corresponding Sukuk-MBSB SC Murabahah, payable semi-annually in arrears.

On 24 December 2013, the first drawdown of the Programme amounting to approximately RM495 million was made with an equivalent issuance by JKSB amounting to approximately RM624 million. The first Tranche is secured against Tranche Cover Assets amounting to RM570,637,000 sold to JKSB on 1 December 2013. The first Tranches of the Sukuk-MBSB SC Murabahah and the Sukuk Commodity Murabahah have a tenure of 8 and 9 years from their drawdown dates respectively and both instruments carry profit rates ranging from 3.84% to 4.68% per annum, payable semi-annually in arrears.

10. Sukuk Commodity Murabahah and Sukuk-MBSB Structured Covered ("SC") Murabahah (cont'd.)

(a) Sukuk Commodity Murabahah (cont'd.)

On 10 December 2014, the second drawdown of the Programme amounting to approximately RM700 million was made with an equivalent issuance by JKSB amounting to approximately RM931 million. The second Tranche is secured against Tranche Cover Assets amounting to RM833,045,000 sold to JKSB on 1 November 2014. The second Tranches of the Sukuk-MBSB SC Murabahah and the Sukuk Commodity Murabahah have a tenure of 10 and 11 years from their drawdown dates respectively and both instruments carry profit rates ranging from 4.00% to 5.00% per annum, payable semi-annually in arrears.

On 29 May 2015, the third drawdown of the Programme amounting to approximately RM900 million was made with an equivalent issuance by JKSB amounting to approximately RM1,510 million. The third Tranche is secured against Tranche Cover Assets amounting to RM1,232,642,000 sold to JKSB on 1 May 2015. The third Tranches of the Sukuk-MBSB SC Murabahah and the Sukuk Commodity Murabahah have a tenure of 10 and 11 years from their drawdown dates respectively and both instruments carry profit rates ranging from 4.30% to 5.20% per annum, payable semi-annually in arrears.

On 21 October 2015, the fourth drawdown of the Programme amounting to approximately RM900 million was made with an equivalent issuance by JKSB amounting to approximately RM900 million. The fourth Tranche is secured against Tranche Cover Assets amounting to RM1,239,677,000 sold to JKSB on 1 October 2015. The fourth Tranches of the Sukuk-MBSB SC Murabahah and the Sukuk Commodity Murabahah have a tenure of 12 and 13 years from their drawdown dates respectively and both instruments carry profit rates ranging from 4.30% to 5.50% per annum, payable semi-annually in arrears.

Included in Sukuk Commodity Murabahah are amount owing from JKSB of RM27,634,000 (2018: RM27,634,000) and amount granted to JKSB of RM350,877,000 (2018: RM350,877,000) which is repayable upon maturity of the Tranche 4 of Sukuk Commodity Murabahah. These amounts are granted to JKSB as part of the Programme to raise the necessary funds for the purchase of the Tranche Cover Assets and are unsecured.

(b) Sukuk-MBSB SC Murabahah

	Bank Group and Bank	
	2019 RM'000	2018 RM'000
Sukuk-MBSB SC Murabahah	1,664,973	1,968,075
Maturity of Sukuk-MBSB SC Murabahah:		
Within one year	294,973	308,864
More than one year	1,370,000	1,659,211
	1,664,973	1,968,075

On 25 October 2013, MBSB's Sukuk-MBSB SC Murabahah programme ("the Programme") was approved by the Securities Commission of Malaysia. The salient terms of the Programme as prescribed in its Principal Terms and Conditions are as follows:

- (i) The Programme is available for issue within a period of 5 years from the first issuance date and is issued in tranches ("Tranche") from time to time, at the discretion of the issuer;
- (ii) Each Tranche consists of multiple series of Sukuk with different maturities;
- (iii) Each Tranche is backed by an identified pool of Financing Receivables ("Tranche Cover Assets") held by JKSB; JKSB issued an unconditional and irrevocable Covered Sukuk Guarantee to the holders of the Sukuk-MBSB SC Murabahah;
- (iv) Tranche Cover Assets is pledged by JKSB as security for the Covered Sukuk Guarantee. These Tranche Cover Assets are assigned to the Sukuk Trustee for this purpose;
- (v) In the event of default as defined in the Principal Terms and Conditions, the Tranche Cover Assets will be liquidated by the Sukuk Trustee in favour of the holders of the Sukuk-MBSB SC Murabahah; and
- (vi) From time to time, additional Tranche Cover Assets will be purchased by JKSB in line with additional Tranches drawdown by the Bank.

As at 31 December 2019, the carrying amount of Financing Receivables identified to back the outstanding Sukuk MBSB SC-Murabahah was RM2,274,992,000 (2018: RM2,584,123,000) as disclosed in Note 9(i).

11. Other receivables

		Bank Group		Bank	
		2019	2018	2019	2018
		RM'000	RM'000	RM'000	RM'000
Amount due from subsidiary	(i)	-	-	41,691	30,069

	-	-	-	-

The Bank invested RM16,222,000 (2018: RM16,222,000) in participating shares of Safeena (L) Ltd, representing a 50% equity interest in a jointly controlled entity with AmanahRaya Investment Bank Ltd. The joint venture was incorporated in the Federal Territory of Labuan, Malaysia under the Labuan Companies Act, 1990. The principal activity of Safeena (L) Ltd is the provision of funding for marine vessels.

13. Investment in joint venture (cont'd.)

(i) Management shares

The management shares carry the right to vote on any matter which is required under the Labuan Companies Act, 1990, and the right to return of capital paid-up on the management shares (after the return of capital paid-up on the participating shares) and rights to dividend or to share in surplus investments remaining after the return of capital paid up on the shares of Safeena (L) Ltd.

(ii) Participating shares

The principal features of the participating shares are as follows:

- (a) The participating shares do not confer any rights of entitlements to vote at meetings of Safeena (L) Ltd.
- (b) Safeena (L) Ltd may in a management shareholders' meeting declare dividends but no dividend shall exceed the amount recommended by the Board of Directors ("the Board") to be justified by the profits of Safeena (L) Ltd.
- (c) The Board may from time to time if they think fit pay such interim dividends on the participating shares as appear to the Board to be justified by the profits of Safeena (L) Ltd.
- (d) The Board may, with the affirmative votes of the management shareholders, distribute in kind among shareholders by way of dividend or otherwise any of the assets of Safeena (L) Ltd provided that no distribution shall be made which will results in a reduction of capital except in a manner allowed by the Labuan Companies Act, 1990.
- (e) The rights attached to the participating shareholders may be varied or abrogated with the consent in writing of the management shareholders provided that the management shareholders always act, at all times, in the interest of Safeena (L) Ltd.
- (f) The participating shareholders do not have the right to require the redemption of any of their participating shares.
- (g) The investments available for distribution amongst the shareholders shall be applied *pari passu* on the return of paid-up capital on management shares and participating shares.
- (h) Any surplus investments of Safeena (L) Ltd shall be distributed *pari passu* amongst the participating shareholders and the Investment Advisors as performance fees in accordance with the provisions of the Investment Advisory Services Agreement.

14. Statutory deposits with Bank Negara Malaysia

The non-profit bearing statutory deposits are maintained with Bank Negara Malaysia in compliance with Section 26(2)(c) of the Central Bank of Malaysia Act, 2009, the amount of which are determined as set percentages of total eligible liabilities.

15. Investment property

	Bank Group and Bank

		<u>571,744</u>	<u>515,834</u>	<u>2,846,531</u>	<u>3,099,060</u>

(i) Amount due to subsidiary

This amount relates to the sale of a portfolio of PFi that does not meet the derecognition criteria prescribed under MFRS 9 as detailed in Note 4(a).

(ii) Amount due to related companies

The amount due to related companies are unsecured, profit-free and repayable on demand.

21. Other payables (cont'd)

(iii) ECL for commitments and contingencies

Movement of ECL for commitments and contingencies is as follows:

2019

	Bank Group and Bank			
	Stage 1	Stage 2	Stage 3	Total
	RM'000	RM'000	RM'000	RM'000
ECL at 1 January 2019	52,717	36,630	4,596	93,943
Total charged to profit or loss (Note 29)	(8,772)	(18,828)	(1,104)	(28,704)
Changes in the impairment allowance:				
- Transfer to stage 1	4,854	(2,350)	(2,504)	-
- Transfer to stage 2	(4,890)	5,190	(300)	-
- Transfer to stage 3	(791)	(4,802)	5,593	-
New financing/disbursement during the year	25,153	1,791	426	27,370
Repayment/drawdown to financing during the year	(12,460)	(6,063)	(621)	(19,144)
Changes in credit risk parameters	(14,280)	(4,746)	(3,227)	(22,253)
Changes to model assumptions and methodologies [^]	(6,358)	(7,848)	(471)	(14,677)
ECL at 31 December 2019	43,945	17,802	3,492	65,239

[^] The changes to model assumptions and methodologies were in relation to incorporation of additional macroeconomic variables ("MEV") to account for potential impact from various external factors and incorporation of cure rates to the loss given default ("LGD") model.

2018

	Bank Group and Bank			
	Stage 1	Stage 2	Stage 3	Total
	RM'000	RM'000	RM'000	RM'000
ECL upon adoption of MFRS 9 as at 1 January 2018	4,659	863	-	5,522
Vested from holding company on 2 April 2018	69,751	35,157	1,515	106,423
Total charged to profit or loss (Note 29)	(21,693)	610	3,081	(18,002)
Changes in the impairment allowance:				
- Transfer to stage 1	217	(217)	-	-
- Transfer to stage 2	(28,677)	28,677	-	-
- Transfer to stage 3	(3,008)	(501)	3,509	-
New financing/disbursement during the year	21,197	5,774	203	27,174
Repayment/drawdown to financing during the year	(22,531)	(20,795)	(619)	(43,945)
Changes in credit risk parameters	11,109	(12,328)	(12)	(1,231)
ECL at 31 December 2018	52,717	36,630	4,596	93,943

22. Recourse obligation on financing sold

	Bank Group and Bank	
	2019	2018
	RM'000	RM'000
Repayments due within 12 months	100,857	593,853
Repayments due after 12 months	2,380,394	1,541,665
	<u>2,481,251</u>	<u>2,135,518</u>

These amounts relate to proceeds received from the sale of Islamic property financing to Cagamas Berhad with recourse to the Bank. Under the agreement, the Bank undertakes to administer the financing on behalf of Cagamas Berhad and to buy back any financing which are regarded as defective based on a set of pre-determined criteria.

The recourse obligation on credit facilities granted by Cagamas Berhad are secured on a portfolio of financing amounting to RM2,608,415,000 (2018: RM2,042,743,000) as disclosed in Note 9(i).

23. Sukuk Wakalah

	Bank Group and Bank	
	2019	2018
	RM'000	RM'000
Sukuk Wakalah	1,293,075	-
Maturity of Sukuk Wakalah:		
Within one year	2,201	-
More than one year	1,290,874	-
	<u>1,293,075</u>	<u>-</u>

The Bank's Sukuk Wakalah Programme of up to RM10.0 billion nominal value was approved by Bank Negara Malaysia and endorsed by the Securities Commission in November 2019. The Sukuk Wakalah Programme comprises:

- (i) Senior Sukuk Wakalah, and/or
- (ii) Tier-2 Sukuk Wakalah, and/or
- (iii) Additional Tier-1 Sukuk Wakalah

In December 2019, the Bank issued Tier-2 Sukuk Wakalah in nominal value of RM1,300 million, comprising RM650 million at 5.05% per annum and RM650 million at 5.25% per annum. The salient terms of the Tier-2 Sukuk Wakalah are as follow:

- (i) subject to call option, with minimum tenure of at least 5 years
- (ii) not pledged to any security
- (iii) non-convertible

24. Deferred tax liabilities

	Bank Group and Bank	
	2019	2018
	RM'000	RM'000
At 1 January	(41,552)	626

35. Commitments and contingencies

In the normal course of business, the Bank Group and the Bank make various commitments and incur certain contingent liabilities with legal recourse to their customers. No material losses are anticipated as a result of these transactions.

	Principal amount RM'000	Gross positive fair value - derivative contract RM'000	Credit equivalent amount RM'000	Risk - weighted amount RM'000
Bank Group and Bank 2019				
Direct credit substitutes	175,335	-	175,156	175,156
Trade-related contingencies	93,805	-	46,903	46,903
Short-term self-liquidating trade-related contingencies	83,691	-	16,738	16,738
Irrevocable commitments to extend credit:				
- one year or less	1,338,351	-	307,921	307,921
- over one year to five years	3,077,627	-	1,537,045	1,482,196
- over five years	72,000	-	36,000	36,000
Foreign exchange related contracts				
- one year or less	228,295	-	7,277	1,536
	<u>5,069,104</u>	<u>-</u>	<u>2,127,040</u>	<u>2,066,450</u>

	Principal amount RM'000	Gross positive fair value - derivative contract RM'000	Credit equivalent amount RM'000	Risk - weighted amount RM'000
Bank Group and Bank 2018				
Direct credit substitutes	187,785	-	187,785	187,659
Trade-related contingencies	254,488	-	90,927	90,927

- one year or less	1,248,705	-	350,206	350,206
- over one year to five years	4,160,842	-	2,078,256	2,053,871
- over five years	220,817	-	110,408	110,408
Foreign exchange related contracts				
- one year or less	5,842	67	151	151
	<u>6,078,479</u>	<u>67</u>	<u>2,817,733</u>	<u>2,793,222</u>

35. Commitments and contingencies (cont'd.)

35.1 Capital Commitments

Capital expenditure approved by Directors but not provided for in the financial statements are as follows:

	Bank Group and Bank	
	2019	2018
	RM'000	RM'000
Property and equipment / Intangible assets:		
Contracted but not provided for	<u>50,342</u>	<u>48,287</u>

36. Earnings per share

Basic earnings per share is calculated by dividing the net profit for the year by the weighted average number of ordinary shares in issue during the year.

	Bank Group		Bank	
	2019	2018	2019	2018
Basic:				
Net profit for the year (RM'000)	<u>550,846</u>	<u>383,878</u>	<u>469,040</u>	<u>319,195</u>
Weighted average number of ordinary shares in issue ('000)	<u>4,653,657</u>	<u>3,605,331</u>	<u>4,653,657</u>	<u>3,605,331</u>
Basic earnings per share (sen)	<u>11.84</u>	<u>10.65</u>	<u>10.08</u>	<u>8.85</u>

The Bank Group and the Bank have no dilution in their earnings per ordinary share in the current and previous financial years as there are no dilutive potential ordinary shares.

37. Dividends

On 29 January 2020, the Directors approved a proposed single-tier final dividend of 2.59 sen per ordinary share in respect of the financial year ended 31 December 2019. Based on the number of shares in issue of 5,159,859,288 as at 31 December 2019, the dividend payable would be RM133,657,081.

The financial statements for the current financial year do not reflect the final dividend above. This dividend will be accounted for in equity as an appropriation of retained profits in the financial year ending 31 December 2020.

38. Capital adequacy

The capital adequacy ratios have been computed in accordance with Bank Negara Malaysia's Capital Adequacy Framework for Islamic Banks (Capital Components and Risk-Weighted Assets). The total risk-weighted assets are computed based on Standardised Approach for Credit and Market Risk and Basic Indicator Approach for Operational Risk.

	Bank Group		Bank	
	2019	2018	2019	2018
	RM'000	RM'000	RM'000	RM'000
<u>Common Equity Tier 1 ("CET 1") Capital/Tier 1 Capital</u>				
Ordinary share capital	5,159,859	4,625,859	5,159,859	4,625,859
Retained earnings	875,072	324,226	728,583	259,543
Other reserves	160,324	15,942	160,324	15,942
	<u>6,195,255</u>	<u>4,966,027</u>	<u>6,048,766</u>	<u>4,901,344</u>
Less: Regulatory adjustments				
Cumulative gains of financial investments at FVOCI	(114,082)	(8,152)	(114,082)	(8,152)

Intangible assets	(115,559)	(104,692)	(115,559)	(104,692)
Total CET 1 Capital/Tier 1 Capital	<u>5,960,380</u>	<u>4,847,949</u>	<u>5,813,891</u>	<u>4,783,266</u>

Tier 2 Capital

Collective ECL and regulatory reserve [^]	468,898	445,089	499,927	480,046
Tier 2 capital instruments	1,293,075	-	1,293,075	-
Total Tier 2 capital	<u>1,761,973</u>	<u>445,089</u>	<u>1,793,002</u>	<u>480,046</u>
Total capital base	<u>7,722,353</u>	<u>5,293,038</u>	<u>7,606,893</u>	<u>5,263,312</u>

[^] Collective ECL on non-credit impaired exposure and regulatory reserves is subject to a maximum of 1.25% of total credit risk-weighted assets.

Breakdown of risk-weighted assets in various categories of risk weights are as follows:

	Bank Group		Bank	
	2019	2018	2019	2018
	RM'000	RM'000	RM'000	RM'000
<u>Total risk-weighted assets ("RWA")</u>				
- Credit risk	37,511,800	35,607,133	39,994,106	38,403,661
- Market risk	33,759	2,136	33,759	2,136
- Operational risk	1,331,960	619,526	1,227,512	573,889
Total RWA	<u>38,877,519</u>	<u>36,228,795</u>	<u>41,255,377</u>	<u>38,979,686</u>
<u>Capital adequacy ratios</u>				
CET 1 capital ratio	15.331%	13.381%	14.092%	12.271%
Tier 1 capital ratio	15.331%	13.381%	14.092%	12.271%
Total capital ratio	<u>19.863%</u>	<u>14.610%</u>	<u>18.439%</u>	<u>13.503%</u>

The capital ratios after the proposed single-tier final dividend of 2.59 sen per ordinary share in respect of financial year ended 31 December 2019 are as follows:

Capital adequacy ratios (after proposed dividend)

CET 1 capital ratio	14.987%	13.381%	13.768%	12.271%
Tier 1 capital ratio	14.987%	13.381%	13.768%	12.271%
Total capital ratio	<u>19.519%</u>	<u>14.610%</u>	<u>18.115%</u>	<u>13.503%</u>

39. Significant related party transactions/balances

(a) Transactions and balances with government-related entities are as follows:

EPF, the ultimate holding body, is a shareholder with control over the holding Company, MBSB, with direct shareholdings of 64.48% as at 31 December 2019 (2018: 63.77%). EPF is also a government-linked entity. EPF and entities directly controlled by and under the significant influence of EPF are collectively referred to as government-related entities to the Bank Group and the Bank.

All the transactions entered into by the Bank Group and the Bank with government-related entities are conducted in the ordinary course of the Bank Group and the Bank's business on terms comparable to those with other entities that are not government-related.

(i) Individually significant transactions and balances with EPF are as follows:

	Bank Group		Bank	
	2019	2018	2019	2018
	RM'000	RM'000	RM'000	RM'000
Expenses				
Profit expense paid on Sukuk to EPF	56,966	42,620	56,966	42,620
Profit expense paid on fixed deposits to EPF	71,235	3,847	71,235	3,847
Rental paid	249	216	249	216
Balances				
Sukuk MBSB-SC Murabahah	1,178,793	1,121,242	1,178,793	1,121,242
Accrued profit on Sukuk due to EPF	7,983	7,824	7,983	7,824
Fixed deposits from EPF	1,800,000	900,000	1,800,000	900,000
Accrued profit on fixed deposits due to EPF	47,071	1,025	47,071	1,025

39. Significant related party transactions/balances (cont'd.)

(a) Transactions and balances with government-related entities are as follows: (cont'd.)

- (ii) Individually significant transactions and balances with the RHB Banking Group of companies, comprising RHB Bank Berhad and RHB Islamic Bank Berhad, being companies in which EPF has significant influence over, are as follows:

	Bank Group		Bank	
	2019	2018	2019	2018
	RM'000	RM'000	RM'000	RM'000
Income/(Expense)				
Profit income from deposit placements	1	23,177	-	-
Profit expense to depositors	(2,419)	(2,478)	(2,419)	(2,478)
Balances				
Cash and short-term funds	71,412	19,215	69,155	14,262
Deposits and placements with banks and other financial institutions	32	32	-	-

- (iii) Collectively, but not individually, significant transactions and balances:

The Bank Group and the Bank have balances with other government-related entities including but not limited to provision of financing and advances, deposit placements and borrowings.

The aggregate amount of the Bank Group and the Bank's significant transactions and balances with other government-related entities other than the RHB Banking Group of companies are as disclosed below:

	Bank Group		Bank	
	2019	2018	2019	2018
	RM'000	RM'000	RM'000	RM'000
Income/(Expense)

The Directors are of the opinion that all the transactions and balances above have been entered into in the normal course of business and have been established on terms and conditions that are not materially different from those obtainable in transactions with unrelated parties.

- (c) The remuneration of Directors and other members of key management is as follows:

	Bank Group and Bank	
	2019	2018
	RM'000	RM'000
Short-term employee benefits	8,246	4,213
Pension costs: EPF	1,014	316
	<u>9,260</u>	<u>4,529</u>

39. Significant related party transactions/balances (cont'd.)

(c) The remuneration of Directors and other members of key management is as follows (cont'd.):

Included in the total key management personnel remuneration are:

	Bank Group and Bank	
	2019	2018
	RM'000	RM'000
Chief Executive Officer's remuneration comprising salary, bonus, allowances and other emoluments, including benefits-in-kind (Note 33)	4,974	1,741

(d) Transactions and balances with Directors, shareholders and key management:

	Bank Group and Bank	
	2019	2018
	RM'000	RM'000
Expense		
Profit expense incurred on savings and deposits	81	77
Balance		
Amount due to in respect of savings and deposits	2,787	2,851

40. Credit exposures arising from transactions with connected parties

	Bank Group and Bank	
	2019	2018
	RM'000	RM'000
Outstanding credit exposures with connected parties	1,561,078	823,376
Percentage of outstanding credit exposures to connected parties as proportion of total credit exposures	3.93%	2.07%
Percentage of outstanding credit exposures to connected parties which is non-performing or in default	0.69%	0.68%

The credit exposures above are derived based on Bank Negara Malaysia's revised Guidelines on Credit Transactions and Exposures with Connected Parties for Islamic Banks, which are effective on 1 January 2008.

41. Financial risk management

The Bank Group and the Bank have exposures to one or more of the following risks:

(i) Credit risk

Arising from the possibility of losses due to an obligor or, market counterparty or issuer of securities or other instruments held, having failed to perform its contractual obligations to the Bank Group and the Bank;

(ii) Market risk

Arising from fluctuations in the market value of the trading or investment exposure arising from changes to market risk factors such as profit rates, currency exchange rates, credit spreads, commodities prices and their associated volatility;

(iii) Liquidity risk

Arising from the Bank Group and the Bank's ability to efficiently meet their present and future funding needs or regulatory obligations, when they come due, which may adversely affect their daily operations and incur unacceptable losses;

(iv) Operational risk

Arising from risk of loss resulting from inadequate or failed internal processes, people and systems, or from external events;

(v) Profit rate/rate of return risk in the banking book

Current and potential risk to the Bank Group and the Bank's earning and economic value arising from movement in the profit rates/rate of return;

(vi) Capital risk

Arising from the failure to meet the minimum regulatory and internal requirements; and

(vii) Shariah non-compliance risk

Arising from possible failure to comply with the Shariah requirements as determined by Shariah Advisory Council ("SAC") of Bank Negara Malaysia ("BNM") and Securities Commission ("SC"), the Shariah Advisory Committee and other Shariah regulatory authorities.

(a) Financial risk management objectives and policies

Risk management forms an integral part of the Bank Group and the Bank's activities and remains an important feature in all their business, operations, delivery channels and decision-making processes. The extent to which the Bank Group and the Bank are able to identify, assess, monitor, manage and report each of the various types of risk is critical to their strength, soundness and profitability. The Bank Group and the Bank's risk management function is independent of their operating units. All new businesses, introduction of new products, engagement in new activities or entrance into new strategic alliances are subject to endorsement by the Risk Management Division and submitted to the Board Audit Committee ("BAC"), Board Risk Management and Compliance Committee ("BRMCC") and/or Board of Directors ("the Board") for approvals.

41. Financial risk management (cont'd.)

(a) Financial risk management objectives and policies (cont'd.)

In essence, the objectives of the Bank Group and the Bank's risk management activities are to:

- (i) Identify and monitor the various risk exposures and risk requirements;
- (ii) Ensure risk-taking activities are consistent with the approved policies and the aggregated risk positions are within the risk appetite as approved by the Board; and
- (iii) Help create shareholder value through proper allocation of risk and the facilitation of independent risk assessments of new business and products.

(b) Risk Management Framework

The Bank Group and the Bank employ an Enterprise-wide Risk Management Framework to manage their risks effectively. The framework involves an on-going process of identifying, evaluating, monitoring, managing and reporting significant risks affecting the Bank Group and the Bank which is implemented through a number of committees established by the Board. This framework provides the Board and the management with a tool to anticipate and manage both existing and potential risks, taking into consideration of dynamic risk profiles as dictated by changes in business strategies, regulatory environment and functional activities throughout the year.

Key features of the Risk Management Framework include:

- (i) Governance and organisation

A strong governance structure is important to ensure an effective and consistent implementation of the Risk Management Framework. The Board is ultimately responsible for the Bank Group and the Bank's strategic directions, which is supported by the risk appetite and Risk Management Frameworks, policies and procedures. The Board is assisted by various risk committees and control functions in ensuring that the Bank Group and the Bank's Risk Management Framework is effectively maintained.

- (ii) Internal Capital Adequacy Assessment Process ("ICAAP")

The Bank Group and the Bank's ICAAP Framework ensures that all material risks are identified, measured and reported; and that adequate capital levels consistent with the risk profiles, including capital buffers, are maintained to support the current and projected demand for capital under existing and stressed conditions. For non-measurable risks, relevant framework and control mechanisms are implemented to mitigate and manage the same.

- (iii) Risk appetite

It is defined as the amount and types of risk that the Bank Group and the Bank are able and willing to accept in pursuit of its strategic and business objectives. The development of the risk appetite is integrated into the annual strategic planning process and is adaptable to changing business and market conditions. As the risk appetite is dynamic, the Board sets the risk appetite based on the business and financial targets, while incorporating macroeconomic and global outlook. The Board also considers the actual and targeted risk profile of the Bank Group and the Bank proposed by senior management and business units when setting the risk appetite. The risk appetite is also being reviewed annually or as and when required.

41. Financial risk management (cont'd.)

(b) Risk Management Framework (cont'd.)

(iv) Risk Management Process

- Business planning: Risk Management Division ("RMD") is an element of the business planning process, which encompasses setting frameworks for risk appetite, risk structure and new product or new business activities.
- Risk identification: Risks are systematically identified through the robust application of the Bank Group and the Bank's Risk Management Framework, policies and procedures.
- Measure and assess: Risks are measured and aggregated using the group wide methodologies across each of the risk types, including stress testing.
- Manage and control: Controls and limits are used to manage risk exposures within the risk appetite set by the Board. Controls and limits are regularly monitored and reviewed in the face of evolving business needs, market conditions and regulatory changes. Corrective actions are taken to mitigate risks.
- Monitor and report: Risks on an individual as well as a portfolio basis are regularly monitored and reported to ensure they remain within the Bank Group and the Bank's risk appetite.

(v) Risk Management Infrastructure

- Risk policies, procedures and methodologies: Well-defined risk policies by risk type provide the principles by which the Bank Group and the Bank manage its risks. Procedures provide guidance for day-to-day risk-taking activities. Methodologies provide specific requirements, rules or criteria that must be met to comply with the policies.
- People: Attracting the right talent and skills are the key to ensuring a well-functioning Risk Management Framework. The organisation continuously evolves and proactively responds to the increasing complexity of the Bank Group and the Bank as well as the economic and regulatory environment.
- Technology and data: Appropriate technology and sound data management are enablers to support risk management activities.

(vi) Risk Culture

The Bank Group and the Bank embrace risk management as an integral part of its culture and decision-making processes. The Bank Group and the Bank's risk management philosophy is embodied in the Three Lines of Defense approach, whereby risks are managed at the point of a risk-taking activity. There is clear accountability of risk ownership across the Bank Group and the Bank. Guided by the said principle, the Bank Group and the Bank have launched a Risk Awareness Culture which comprises training, awareness campaigns and roadshows within the Bank Group and the Bank to promote a healthy risk culture. A strong risk culture minimises the Bank Group and the Bank's exposure to financial and non-financial risks including reputational impact, over time.

In addition, the Bank Group and the Bank have implemented the Regional Compliance and Risk Officers ("RCRO") and Designated Compliance and Risk Officers ("DCORO") to cultivate proactive risk and compliance management and to establish a robust risk culture. The DCOROs are appointed at the respective branches, business and functional units across the Bank Group and the Bank to provide real time advisory on risk and compliance matters.

41. Financial risk management (cont'd.)

(c) Risk organisation

At the apex of the Bank Group and the Bank's risk management structure is the Board of Directors ("the Board"), which comprises Non-Executive Directors. In line with best practices, the Board determines the risk policy objectives for the Bank Group and the Bank, and assumes responsibility for the supervision of risk management.

The day-to-day responsibility for risk management and control is delegated to the BRMCC which undertakes the oversight function for overall risk limits and ensures that the Bank Group and the Bank are within risk appetites as established by the Board. Other than the BRMCC, the Board is also supported by specialised and supervisory committees, the details of which are as follows:

- (i) Board Investment and Credit Committee ("BICC"): The BICC assists the Board to consider and if deem fit to affirm or veto, all financing and investment applications, additional financing or investment, and/or request for changes to existing financing/investment accounts within the Committee's discretionary authority. The BICC also considers and if deem fit to affirm or veto on waivers of penalty, profit or principal amount, rescheduling/restructuring of accounts and/or request for changes to existing non-performing financing/investment accounts within the Committee's discretionary authority.
- (ii) Asset and Liability Committee ("ALCO"): The ALCO is responsible for the Bank Group and the Bank's liquidity management by focusing on the maturity gap, liquidity position, financing portfolio concentration, deposits composition and depositors' concentration. The ALCO also manages the profit rate exposures and profit margin of the Bank Group and the Bank by reviewing the lending rates, cost of funds, profit margin and the repricing gaps.
- (iii) Management Investment and Credit Committee ("MICC"): The MICC deliberates and recommends to the Board or relevant Board Committees for Corporate Financing, Retail Financing and Investment accounts, and decides whether to proceed with the preparation of the Board/BICC paper based on completed credit assessment reports. The MICC also deliberates and recommends any appeal on variations to the terms and conditions as earlier approved by the Board or Board Committees and also deliberates and approves the submission of the relevant corporate rehabilitation papers for the Board or Board Committees.
- (iv) Management Committee ("MANCO"): The MANCO deliberates the implementation of the Enterprise-wide Risk Management Framework which addresses credit, market and operational and strategic risks and also resolves operational issues within the policies established by the Board and recommends policy changes to the Board.

The Bank Group and the Bank's risk management approach is based on the 'Three Lines of Defence' concept.

1st line of defence - the risk owner or risk-taking unit i.e. business or support unit is accountable for putting in place a robust control environment within their respective units. They are responsible for the day to day management of operational risk.

2nd line of defence - RMD is responsible for establishing and maintaining the Risk Management Framework, developing various risk management tools to facilitate the management of operational risk, monitoring the effectiveness of risk management, assessing operational risk issues from the risk owner and escalating the issues to the relevant governance level with recommendations on appropriate risk mitigation strategies. In creating a strong risk culture, RMD is also responsible to promote risk awareness across the Bank Group and the Bank.

41. Financial risk management (cont'd.)

(c) Risk organisation (cont'd.)

Compliance Division is responsible for ensuring effective oversight on compliance-related risks such as regulatory compliance risk, compliance risk as well as money laundering and terrorism financing risks through proper classification of risks and developing, reviewing and enhancing compliance-related training programme as well as conducting training that promotes awareness creation.

3rd line of defence - Internal Audit Division provides independent assurance to the Board and senior management on the effectiveness of the risk management process.

(d) Risk reporting and monitoring

The Bank Group and the Bank's credit portfolios are monitored through early alert reporting to ensure credit deterioration is promptly detected and mitigated through the implementation of risk remediation strategies. All business units undertake regular and comprehensive analysis of their credit portfolios and report to the relevant committees and are overseen by RMD. RMD provides independent reporting to the business units and the Board to ensure independence in relation to the prompt identification and communication of emerging credit issues of the Bank Group and the Bank to the Board.

(e) Credit risk mitigation

All credit facilities are granted on the credit standing of respective borrowers, source of repayment, debt servicing ability and the collateral provided. The valuation of the collateral is conducted periodically. The main types of collateral taken by the Bank Group and the Bank are marketable securities, real estate, inventory and receivables. Personal guarantees are also taken as a part of the collateral to secure the moral commitment from the principal shareholders and directors of the borrowers. Corporate guarantees are often obtained when the borrower's credit worthiness is insufficient to justify the granting of credit facilities.

(f) Concentration risk

Concentration of credit risk arises when a number of customers are engaged in similar business activities or activities within the same geographic region, or when they have similar risk characteristics that would cause their abilities to meet contractual obligations to be similarly affected by changes in economic or other conditions. The Bank Group and the Bank monitor their portfolios to identify and assess risk concentrations. The credit portfolios are monitored and periodically reviewed to identify, assess and safeguard against unacceptable risk concentrations. RMD also applies single customer counterparty limits to protect against unacceptably large exposures to single risk. RMD conducts analysis and reports concentration risk to the Board on a quarterly basis.

41. Financial risk management (cont'd.)

41.1 Credit risk

Credit risk is the risk of loss to the Bank Group and the Bank due to the deterioration in credit worthiness of their borrowers and, consequently, their ability to discharge their contractual obligations to the Bank Group and the Bank. Credit risk remains the most significant risk to which the Bank Group and the Bank are exposed. The purpose of credit risk management is to keep credit risk exposure to an acceptable level in line with the Bank Group and the Bank's risk appetite and to ensure that the returns are commensurate to the risk underwritten.

The primary objective of the Bank Group and the Bank's credit platform is to enhance the efficiency and effectiveness of the credit oversight and credit approval processes for all retail and corporate financing. Credit proposals are submitted to the relevant credit committees for approval or concurrence, and are subsequently submitted to RMD for independent assessment. Credit exposures are evaluated by RMD and are monitored against approved limits on a periodic basis on a portfolio and individual basis.

41. Financial risk management (cont'd.)

41.1 Credit risk (cont'd.)

(ii) Maximum exposure to credit risk

The following analysis represents the Bank Group and the Bank's maximum exposure to credit risk from on-balance sheet financial assets and off-balance sheet commitments and contingencies, excluding any collateral held or other credit enhancements. For on-balance sheet financial assets, the exposure to credit risk equals their carrying amount. For contingent liabilities, the maximum exposure to credit risk is the maximum amount that the Bank Group and the Bank would have to pay if the obligations of the instruments issued are being called upon. For credit commitments, the maximum exposures to credit risk is the full amount of the undrawn credit facilities granted to customers.

	Bank Group		Bank

Internal ratings is defined as follows:

Risk Levels	Description
Excellent	Superior capability for payment of financial commitments with little susceptibility to adverse effects to changes in circumstances and economic conditions.
Good	Strong capacity to meet financial commitments and are less susceptible to adverse effects to changes in circumstances and economic conditions.
Average	Moderate capacity to meet financial commitments and may be susceptible to adverse changes in circumstances and economic conditions.
Below Average	Weak in terms of overall credit risk, with some apparent risk of default. May face problems in meeting commitments in the long term.
Poor	Poor credit quality and high risk of default.

41. Financial risk management (cont'd.)

41.1 Credit risk (cont'd.)

(iii) Credit quality (cont'd.)

(a) Financing and advances (cont'd.)

Past due but not impaired

Past due but not impaired financial assets are financing and receivables where the customer has failed to make a principal or interest payment when contractually due, and includes financing and advances which are not past due or have no overdraft for a period of less than three months.

	Bank Group and Bank			
	2019		2018	
	RM'000	% to Gross Financing	RM'000	% to Gross Financing
By aging				
Months-in-arrears 1	847,482	2.49%	1,237,110	3.74%

	RM'000	RM'000
<u>Impaired financing</u>		
Individually assessed of which:		
Months-in-arrears 0	14,021	12,900
Months-in-arrears 2	-	3,567
Months-in-arrears 3 and above	180,219	144,294
Collectively assessed	<u>623,785</u>	<u>631,532</u>
	<u>818,025</u>	<u>792,293</u>

Impaired financing of which are rescheduled and restructured financing:

	Bank Group and Bank	
	2019	2018
	RM'000	RM'000
Retail	40,860	79,393
Corporate	24,440	45,170
	<u>65,300</u>	<u>124,563</u>

Rescheduled or restructured financing are financing where the original contractual terms have been modified due to deterioration in the customers' financial positions and the Bank Group and the Bank have made concessions that it would not otherwise consider. Once the financing is rescheduled or restructured, its satisfactory performance is monitored for a period of six months before it can be reclassified to non-credit impaired.

^ Commitments and contingencies exclude foreign exchange related contracts.

41. Financial risk management (cont'd.)

41.1 Credit risk (cont'd.)

(iv) Collateral and other credit enhancements obtained

The main types of collateral obtained by the Bank Group and the Bank to mitigate credit risk are as follows:

- For property financing - changes over the properties being financed;
- For auto financing - ownership claims over the vehicles being financed; and
- For other financing and advances - changes over business assets such as premises, inventories, trade receivables and/or cash deposits.

The financial effect of collateral (quantification to the extent to which collateral and other credit enhancements mitigate credit risk) held for gross financing and advances for the Bank Group and the Bank is 24.96% (2018: 22.38%). The financial effects of collateral held for the remaining financial investments are not significant.

(v) Key macroeconomic variables

In computing the Expected Credit Losses ("ECL") of financing and advances, the Bank Group and the Bank incorporate the impact of forward-looking key macroeconomic variables ("MEV") according to the respective portfolio. The Bank Group and the Bank performed statistical analysis based on historical experience and identified the MEV impacting credit risk and ECL for each portfolio. The relationship of the MEV on the components of ECL has been determined by performing statistical regression analysis to understand the impact changes in these variables have had historically on default rates and on the components. Sources of forecasts of the MEV are external research house.

The MEVs incorporated into the ECL calculations are supported with 3 economic scenarios i.e. baseline, best and worst case scenarios. The following table shows the MEVs applied but not limited to by the Bank Group and the Bank in the ECL models.

Macroeconomic Variables ("MEVs")	Base scenario		Best scenario		Worst scenario	
	Next 12 months	Remaining forecast period	Next 12 months	Remaining forecast period	Next 12 months	Remaining forecast period
Year 2019						
Household Disposable Income (in Billion)	915.88	989.54	921.12	1,020.27	906.47	950.69
Private Consumption (in Billion)	906.50	1,008.34	925.51	1,024.26	885.13	1,001.45
Interbank Offered Rate - 3 months ("KLIB3M") (%)	2.96	3.41	2.97	3.66	2.63	2.48
House Price Index ("HPI")	205.81	223.48	208.36	230.00	203.61	213.91
Unemployment Rate (%)	3.11	3.10	3.01	3.02	3.61	3.53
Overnight Policy Rate ("OPR") (%)	3.00	3.61	3.10	3.80	2.50	2.67
Brent Crude Oil Future Prices (USD/barrel)	64.13	66.56	79.28	81.17	60.80	63.56
Consumer Price Index ("CPI")	124.16	129.56	125.51	131.89	123.63	128.23
Exchange Rate (MYR/USD)	4.24	4.24	3.92	4.16	4.40	4.27
Total Unemployed (in Million)	0.50	0.51	0.48	0.50	0.61	0.57
Year 2018						
House Price Index ("HPI")	196.28	211.79	197.19	216.54	194.61	203.77
Consumer Price Index ("CPI")	123.05	128.33	124.40	130.65	122.53	127.03

During the year, the Bank Group and the Bank improved the ECL models by incorporating additional MEVs to account for potential impact from various external factors.

41. Financial risk management (cont'd.)

41.2 Market risk

Market risk is the risk of potential loss as a result of changes in the intrinsic value of financial instruments caused by movements in market variables such as profit rates and foreign exchange rates that will eventually affect the Bank Group and the Bank's profitability and capital preservation.

The Bank Group and the Bank's market risk management includes the monitoring of fluctuations in net profit income or investment value due to changes in relevant market risk factors. The ALCO monitors the exposure on a monthly basis through reports produced by the Treasury Division. The RMD, via its presence in the ALCO, provides advisory services and input on the Bank Group and the Bank's market risk management.

(i) Profit rate risk

Rate of Return in the Banking Book

Rate of Return risk in the Banking Book ("RORBB") refers to the risk of the Bank Group and the Bank suffering deterioration in financial position (economic value loss) or financial losses due to the impact of changes in market profit rates over time on banking book exposure arising from activities such as deposits taking, financing and investment.

The Bank Group and the Bank use various tools including repricing gap reports and stress tests to measure their RORBB exposure. The impact on earnings and economic value are considered at all times in measuring the RORBB.

The table below shows the Bank Group and the Bank's profit rate sensitivity to a 100 basis points parallel shift as at reporting date.

	2019		2018	
	+100 basis points RM'000	-100 basis points RM'000	+100 basis points RM'000	-100 basis points RM'000
Bank Group				
Impact on Earnings-at-Risk ("EaR")	60,058	(60,058)	71,356	(71,356)
Impact on Economic Value Loss ("EVE")	(1,299,454)	1,299,454	(1,119,951)	1,119,951
	2019		2018	
	+100 basis points RM'000	-100 basis points RM'000	+100 basis points RM'000	-100 basis points RM'000
Bank				
Impact on Earnings-at-Risk ("EaR")	63,999	(63,999)	71,356	(71,356)
Impact on Economic Value Loss ("EVE")	(1,388,051)	1,388,051	(1,119,951)	1,119,951

41. Financial risk management (cont'd.)
41.2 Market risk (cont'd.)
(i) Profit rate risk (cont'd.)

The tables below summarise the Bank Group and the Bank's exposure to profit rate risk. The tables indicate average profit rates at the reporting date and periods in which the financial instruments mature, whichever is earlier. Assets classified as non-profit sensitive are either non-profit bearing or, if profit bearing, the cashflows arising from these assets are not expected to change significantly if profit rates change.

41.2 Market risk (cont'd.)

(ii) Foreign Exchange Risk

The Bank Group and the Bank are exposed to transactional foreign exchange exposures which are exposures on assets and liabilities denominated in currencies other than the functional currency of the transacting entity.

The Bank Group and the Bank take minimal exposure to the effects of fluctuations in the prevailing foreign currency exchange rates on their financial position and cash flows. The Bank Group manages its exposure to foreign exchange currencies at each entity level.

Sensitivity Analysis

The table below shows sensitivity of the Bank Group and the Bank's profit after taxation to movement in foreign exchange rates:

	Bank Group and Bank

41.3 Liquidity risk

The Bank Group and the Bank's liquidity risk management policy is to maintain high quality and well diversified portfolios of liquid assets and sources of funds under both normal business and stress conditions. Liquidity risk management of the Bank Group and the Bank is governed by established risk tolerance levels as defined in the Bank Group and the Bank's Market Risk Framework. The ALCO would be informed by management action triggers to alert management to potential and emerging liquidity pressures. The Bank Group and the Bank's early warning system and contingency funding plans are in place to alert and enable management to act effectively and efficiently during a liquidity crisis.

The ALCO meets at least once a month to discuss the liquidity risk and funding profile and is chaired by the Chief Executive Officer. The ALCO and Funding Unit, which is responsible for the independent monitoring of the Bank Group and the Bank's liquidity risk profile, works closely with the Treasury Division in the surveillance on market conditions and performs stress testing on liquidity positions.

41. Financial risk management (cont'd.)

41.4 Operational risk

Operational risk is defined as the risk of loss arising from inadequate or failed internal processes, people and systems and external events, which includes legal risk and Shariah non-compliance risk but excludes strategic and reputational risk. The Bank Group and the Bank recognise and emphasize the importance of operational risk management and manage this risk through a control-based environment where processes are documented, authorisation is independent, transactions are reconciled and monitored and business activities are carried out within the established guidelines, procedures and limits. The Bank Group and the Bank's governance approach in managing operational risk is premised on the Three Lines of Defense Approach as discussed under Note 41(c).

MBSB BANK BERHAD (200501033981 / 716122-P)

(Incorporated in Malaysia)

42. Fair value

The carrying amounts of cash and short-term funds, deposits and placements with financial institutions, other receivables (excluding prepayments and deposits) and other payables reasonably approximate their fair values due to the relatively short-term nature of these financial instruments.

The tables below analyse other financial instruments at fair value.

Bank Group	Fair value of financial instruments carried at fair value				Fair value of financial instruments not carried at fair value				Total fair value	Carrying amount
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total

42. Fair value (cont'd.)

The fair values of the financial instruments not measured at fair value are based on the following methodologies and assumptions:

Financial investments at FVOCI and financial investments at amortised cost

The estimated fair value is generally based on the quoted and observable market prices. Where there is no ready market in certain securities, the Bank Group and the Bank establish fair value by using valuation techniques. These include the use of recent arm's length transactions, discounted cash flow analysis and other valuation techniques commonly used by market participants.

Financing and advances

The fair value of fixed rate financing with remaining maturities of less than one year and variable rate financing are estimated to approximate the carrying amount. For fixed rate financing with maturities of more than one year, the fair values are estimated based on expected future cash flows of contractual instalment payments, discounted at prevailing rates offered for similar financing to new borrowers with similar credit profiles as at the reporting date.

The fair value of impaired fixed and variable rate financing is represented by their carrying amount, which are net of impairment allowances.

Sukuk Commodity Murabahah

The fair value is estimated by discounting expected future cash flows at the effective profit rate of similar instruments.

Deposits from customers and deposits and placements of banks and other financial institutions

Deposits, placements and obligations which mature or reprice after one year are grouped by residual maturity. Fair value is estimated using discounted cash flows, applying either market rates, where applicable, or current rates offered for deposits of similar remaining maturities. The fair values of deposits repayable on demand and deposits and placements with remaining maturities of less than one year are approximated by their carrying amounts due to the relatively short maturity of these instruments.

Recourse obligation on financing sold

The fair values for recourse obligations on financing sold to Cagamas Berhad are determined based on discounted cash flows of future instalment payments at prevailing rates quoted by Cagamas Berhad as at reporting date.

Sukuk-MBSB SC Murabahah and Sukuk Wakalah

The fair value of Sukuk-MBSB SC Murabahah and Sukuk Wakalah are based on market prices.

43. Sources and uses of charity funds

	Bank Group and Bank	
	2019	2018
	RM'000	RM'000
Sources		
Gharamah from late payment charges		
Balance as at 1 January	1,379	1,867
Collection during the year	83	315
	<u>1,462</u>	<u>2,182</u>
Application		
Fund contribution for schools, mosques, universities and non-government organisations during the year	-	(803)
	<u>-</u>	<u>(803)</u>
Balance as at 31 December	<u>1,462</u>	<u>1,379</u>

As a deterrent mechanism against cases of default by customers in discharging their financial obligation arising from Islamic contracts, the imposition of late payment charges by Islamic banking institutions under the concept of gharamah (fine or penalty) is allowable. Gharamah is not allowed to be recognised as income, and it must be channeled to specified charitable bodies.

From ongoing Shariah reviews and audits conducted by the Bank Group and the Bank's operational processes, it was noted that there is no Shariah non-compliant income recorded during the financial year under review

44. Significant events

(i) Issuance of RM534 million ordinary shares

On 13 December 2019, the Bank increased its issued and paid-up capital from RM4,625,859,288 to RM5,159,859,288 via the issuance of 534,000,000 new ordinary shares.

(ii) Issuance of RM1.3 billion Tier-2 Sukuk Wakalah

On 20 December 2019, the Bank issued RM1.3 billion Tier-2 Sukuk Wakalah under the Sukuk Wakalah Programme of RM10.0 billion in nominal value as disclosed in Note 23.

(iii) Transfer of assets from the holding company, MBSB

During the year, MBSB has progressively transferred the following assets to the Bank:

	2019 Bank RM'000
Mortgage converted to Islamic property financing	
i) Converted on 20 April 2019	25,079
ii) Converted on 27 July 2019	39,961
iii) Converted on 24 August 2019	20,018
iv) Converted on 28 September 2019	23,372
v) Converted on 26 October 2019	16,454

45. Subsequent events

Impact of novel coronavirus ("Covid-19")

The existence of the novel coronavirus ("Covid-19") was confirmed subsequent to December 2019. On 11 March 2020, the World Health Organisation declared the Covid-19 outbreak to be a pandemic in recognition of its rapid spread across the globe, with most countries now affected. Many governments are taking increasingly stringent steps to help contain or delay the spread of the virus, for instance, by declaring travel restrictions and quarantine measures. Consequently, there is a significant increase in economic uncertainty globally, which is evidenced by the increased volatility in financial markets, commodity prices and currency exchange rates.

As a preventive measure towards Covid-19, the Malaysian government also implemented a movement control order ("MCO") on 18 March 2020 that lasted for 56 days until 12 May 2020 (as at date of printing). The measure entailed a general prohibition of mass movements or gatherings and the closure of all government and private premises except for those involved in essential services (such as water and banking, amongst others). The MCO is anticipated to lead to decreased gross domestic product levels for 2020, disruptions to business operations and reduced consumer spending.

The Malaysian government had subsequently launched two economic stimulus packages on 27 February 2020 and 27 March 2020 with a combined value of RM250 billion to improve the welfare of Malaysian citizens and businesses by alleviating income losses resulting from the MCO. The stimulus packages largely assume one-off cash payments to households and individuals, discounts on utility bills and deferments of contributions to the Employees Provident Fund. The bulk of the payments are scheduled to be disbursed in April and May 2020. The package also included other incentives, cash flow reliefs, wage subsidies and loan guarantees to companies.

In a letter to the heads of financial institutions dated 24 March 2020, Bank Negara Malaysia ("BNM") had announced a six-month automatic moratorium for individuals and small and medium-sized enterprises on repayments of all ringgit-denominated loans or financing except credit cards that are not in arrears exceeding 90 days as at 1 April 2020. BNM clarified that banks should not impose penalty charges on the deferred amounts nor classify them as non-performing. In the same letter, BNM also encouraged banks to facilitate requests for a moratorium for corporate borrowers.

The Bank Group and the Bank consider this outbreak as well as the resulting MCO, economic stimulus packages and moratorium on repayments as non-adjusting post balance sheet events. Consequently, there is no impact on the recognition and measurement of assets and liabilities as at 31 December 2019 in the Bank Group and the Bank's financial statements. As the situation continues to be fluid and rapidly evolving, the Bank Group and the Bank do not consider it practicable to provide a quantitative estimate of the potential impact of these economic conditions on the Bank Group and the Bank.

The impact of this outbreak and its associated events will be incorporated into the Bank Group and the Bank's MFRS 9 estimates of expected credit loss provisions in 2020.
